

BILLION IS ADDED TO CROP VALUES

PROGRESS OF CONFERENCE IS SATISFACTORY

Rocks Ahead of the Allied Conference on German Plans, However

SOME OF PROBLEMS

How Penalties Shall be Inflicted Upon Germany Is One of the Problems

London, July 18.—Satisfactory progress of the inter-allied conference, called for putting into execution the Dawes report on German reparations, was indicated today by work already performed by the committees appointed by the opening session Wednesday.

One of the important parts of the conference work, the perfecting of an organization to be set up in each country for the handling of payments to be made by Germany under the new scheme, was completed yesterday and a draft of the proposal embodying the agreement is ready for the approval of a plenary session of the conference which probably will be held tomorrow.

Other Troubles

The most optimistic of the delegates from 10 nations who have gathered in London do not suggest that the most important or the most difficult period had been past. Real rocks around which the allied plenipotentiaries must steer a careful course lie hidden in two subdivisions of the conference known as committees one and two.

The first committee is dealing with the problem of creating confidence for an international loan for Germany and the question of an American member for the reparations commission as arbiter on the subject of default. Committee No. 2 which is attempting to devise means to restore the fiscal and economic unity of Germany has encountered difficulties owing to the French request that the proposed international loan, upon which the whole workings of the Dawes plan depend, shall be underwritten before the question of German unity is brought up.

Problem of Penalty

One problem is what penalty to inflict if Germany willfully defaults under the Dawes schedule. On the question of sanction in case of default, the French delegates decline to discuss the proposals they are understood to have made at committee meetings yesterday. It has been indicated, however, that France favors putting the sanction into definite shape so that complete programs will be ready for application at any time that Germany is adjudged delinquent.

Col. James A. Logan Jr., adviser to Ambassador Kellogg in the conference yesterday attended the sessions of committee No. 1 and was of the opinion that as much progress had been made as it was reasonable to expect under the circumstances. Ambassador Kellogg did not participate in yesterday's conference work.

LEAGUERS TO CONTROL G. O. P.

Elect Majority of Members of State Committee

Nonpartisans will again control the Republican state central committee it was indicated today with reports from many districts of the election of state committeemen received.

In several counties there were votes to support all regular Republican nominees, including Ransom and Morton counties, the latter's action being dependent upon support for the Republican national ticket. In Ransom county the third party movement was deplored.

SHIELDS SON OFFENDS COURT

St. Paul, July 18.—W. J. Baxter a North Dakota farmer, endeavored to shield his 15 year old son from prosecution for driving an automobile recklessly and almost went to the workhouse himself as a result.

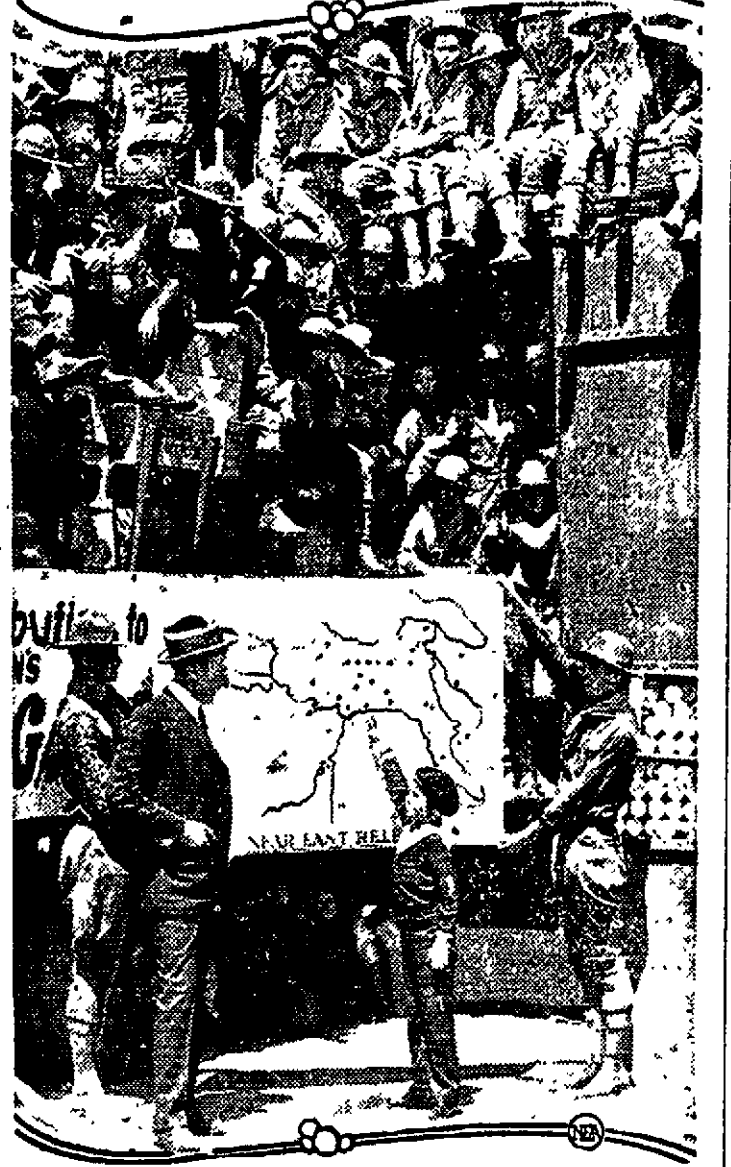

Baxter was arrested Tuesday night after his automobile had struck and slightly damaged a second machine. The father said he was driving when the accident occurred, and a charge of driving while drunk was made against him.

Judge Conrad Olson was about to send Baxter to the workhouse when the son admitted that he was responsible for the accident. That saved Baxter from the workhouse, but he was fined \$100 for being drunk.

BAKERS END STRIKE

Paris, July 18.—Breadless Paris breathes a sigh of relief. Hundreds of bakery workers, who went on strike for increased wages, have returned to work. Their pay has been raised and so has the price of bread.

Jackie, Like Crusader of Old, To "Pilot" Kiddies' Food Ship

JACKIE POINTS OUT ROUTE HE WILL FOLLOW. BEHIND HIM IS SOME OF THE MILK HE WILL INCLUDE IN THE FOOD SHIP'S CARGO.

By Jack Jungmeyer
NEA Service Writer

Hollywood, July 18.—Jackie Coogan, the world's best known boy, is about to undertake his greatest role and it hasn't anything to do with motion pictures.

He is going to head a modern Children's Crusade carrying food relief to 100,000 needy youngsters of the Near East.

When the Near East Relief organization decided to select him as "pilot" for the ship carrying a million-dollar cargo to the orphaned children abroad, there was no debate as to choice.

Young Coogan, accompanied by his parents, will leave Hollywood Aug. 2. En route to Boston he will stop at the following cities to collect milk, clothing and non-perishable foodstuffs for the million-dollar cargo: Albuquerque, Denver, Kansas City, Chicago, Indianapolis, Louisville, Columbus, Cincinnati, Cleveland, Detroit, Pittsburgh, Washington, Philadelphia, Baltimore, Newark and New York.

Upon completion of this trip, to consummate several weeks, he will superintend loading the ship at Boston and will then take "command" of the voyage to Greece, Syria, Armenia and the Holy Land.

Every school child in the United States has been asked to bring contributions to the collection points. Boy Scouts, milk companies and various organizations have helped concentrate the supplies under direction of the Near East Relief.

Jackie also will bear a message and greeting from millions of American youngsters to the beneficiaries of their united gift.

In reply to the invitation of Charles V. Vickery of the Near East Relief, John Coogan, father of Jackie, explained his readiness to have his son go, because "the worthiness of the cause impels us to do our share, and because we are mindful of the tremendous influence upon the life and character of our boy such a humanitarian mission will exert."

Jackie has insisted that he pay his own way—all expenses—and that wish is to be granted by the elder Coogans.

WESTERN N. D. EXHIBITORS WIN AWARDS

Several western North Dakota exhibitors were among the winners in the awards made in various competitions at the North Dakota State Fair at Fargo, the announcement of awards shows.

Winners include: Forage crop seeds, alfalfa seed, John Christianson, New Salem, second.

White clover seed, William McDonald, Bismarck, fourth.

Best peck alfalfa, John Christianson, New Salem, third.

Corn, Dakota white flint, R. H. Peterman, Steele, third. Genu flint, Mrs. Fern Johnson, Washburn, second. Mercer corn, Charles Roberts, Dawson, third. Rainbow flint, Jacob Hoernut, Hebron, first. Best single ear of corn, Pioneer white dent, William Clardie, Bismarck, third. Northwestern dent, Kurtz Brothers, Hazleton, third. Falconer corn, Theodore Seir, New Salem, second and John Maxie, Golden Valley, third.

Hard red spring wheat, fourth John Homeburg, Amidon. Oats, mid-season, Oscar H. Will & Co., Bismarck, second. Barley, one variety, Oscar H. Will & Co., Bismarck, second.

ROY FRAZIER MUCH IMPROVED

Roy Frazier of Crosby, who was injured in the automobile accident near Steele in May, in which A. G. Sorlie, League candidate for Governor was badly injured, is in the city and much improved. Until a few days ago, Frazier said, he was subjected to spells of severe pain. Then suddenly it all seemed to disappear and he is now looking well. One of Frazier's eyes was badly injured. He said here the physician informed him that his sudden improvement was due to the breaking of a condition of the optic nerve.

PLAY IN LINTON

The Bismarck Independent baseball team will play Sunday at Linton instead of Wilton as announced last night.

WALSH COUNTY TEAM WINNER

Fargo, N. D., July 17.—Walsh county was awarded first place in the stock judging contest at the State Fair. Case county was second and Barnes county third. The awards were presented at the evening performance in the grandstand, Richard Jarvis of Nottliem township, Barnes county, won the highest individual honors in the stock cattle judging contest.

FIRST BEER BOTTLER

London, July 18.—A toast to the memory of Benjamin Kenton, the first beer bottler of all time, was drunk with fervor and enthusiasm at a dinner of the ancient Vintners' Company here recently. It was Kenton who discovered the secret of bottling ale so it could pass through changes of climate without popping its cork.

ENTIRELY NEW LEOPOLD, LOEB PLEA PLANNED

"Compound Insanity" to be Advanced by Attorneys For Youths in Trial

MINDS INTERLOCK?

Attorneys Say Together They Have Murder Impulse, Singly They Have Not

Chicago, July 18.—A line of defense based on a theory of compound insanity for which attorneys say there is no precedent in medical-legal history, will be advanced in the trial of Nathan Leopold Jr. and Richard Loeb, confessed kidnapers slayers of Robert Frank, according to defense attorneys.

The youths are possessed of an interlocking personality, their attorneys say the reports of alienists and mental experts, who examined them, show so that together they are impelled to the commission of crime that neither, alone, could have conceived.

The jury trying them will be asked to consider the youths, millionaires' sons and university graduate students, not as two personalities, entities but as a merged personality with the insanity of each coinciding in a murder impulse, it has been indicated.

Meanwhile the prosecution, headed by States Attorney Robert E. Crowe announces it is prepared to shatter the defense of mental irresponsibility. The prosecutors have consulted several mental experts in outlining their side of the case.

"Any alienists who will take the stand and testify that these boys are insane is either a knave or a fool," States Attorney Crowe said yesterday.

REDUCTION IN WESTERN RAIL RATES REFUSED

Interstate Commerce Commission Declines Cut of 10 Per Cent on Commodities

CITE RAIL EARNINGS

Says That They Would Be Reduced Heavily by the Decreases

Washington, July 18.—Reduction in western railroad rates on grain, grain products and hay, sought by 10 states of the Mississippi-Missouri valley cereal growing region under the leadership of Kansas and supported by most farm organizations concerned were definitely refused last night by the interstate commerce commission.

At the same time the commission decided that the results of an independent investigation it had conducted into the level of rates on these same products in all sections of the United States had demonstrated no need for any changes, and proceedings before it bearing up both issues were dismissed.

Railroad earnings in the western region from the Rocky mountains to the Great Lakes and south as far as Texas would have been reduced about \$17,600,000 annually had the contention of the producing states been granted. The commission held the financial status of the carriers did not justify the step, while in general it held that the financial condition of the western grain farmers was showing a slight improvement, relieving them of the necessity for the reduction.

Sharp Dissent

A sharp dissent was recorded within the commission over the views of the majority, the minority for various stated reasons refusing to follow the majority of one which controlled the action.

The rates affected by the decision are those applied to wheat throughout the growing territory where it constitutes the most important crop and have presented the most troublesome and controversial problem before the interstate commerce commission in recent years. The states which led in the presentation of the complaint yesterday—Kansas, Iowa, Nebraska, North and South Dakota, Illinois, Oklahoma, Missouri, Minnesota and Louisiana—obtained, in January 1922, the first railroad rate reduction granted after the war, for the grain products concerned.

Later in 1922, a general reduction of 10 per cent in all rates was granted by the commission, and early in 1923 the same western states promptly moved before the commission to obtain a secondary reduction on their own products. After the first hearing, the commission ordered a retrial of the issue, and instituted its own investigation into grain rates in all sections of the country.

HEAVY RAIN IS RECORDED OVER BIG TERRITORY

Entire South Soo Line as Far as Hankinson Reports Good Rain in Night

SHOWERS ALSO NORTH

Weather Bureau Predicts Continuation of Thunderstorms in This Area

Thundershowers which covered a considerable territory south and southeast of Bismarck last night virtually clinched crop prospects in a large area of Emmons, Logan and McIntosh counties, according to information to The Tribune today.

The shower which fell in Bismarck, amounting to thirteen hundredths of an inch of rain, extended north to Washburn, but was light. The Soo line reported a heavy rain over their division as far southeast as Hankinson and on the Pollock line, which goes straight down to the South Dakota border. Dr. Wolverton of Linton, Emmons Co., declared there was a heavy rain from 2 to 7 a. m., with 1.55 inches of rain falling. The Methodist church at Linton was struck by lightning, but no great damage resulted.

Dr. Wolverton, who records the rainfall at Linton for the United States weather bureau, though the record is not included in the daily corn and wheat region report from 17 state stations said in a telephone message to The Tribune that he had telephoned to various parts of Emmons county and a fine rain was reported in all sections.

The only weather station south of here is at Napoleon, and it reported .38 of an inch of rain in the 24-hour period ending at 7 a. m. today, a good rain.

The weather stations in the state reported rain as follows: Bismarck .13; Ellendale .16; Jamestown .26; Larimore .10; Lisbon .04; Napoleon .38; Williston .10; Moorhead, Minnesota, .02.

The rain in Bismarck, combined with rain the night before, gave a quarter of an inch of rain in two nights which, combined with cool weather, is expected to have an advantageous effect upon crops in this immediate territory. With many agriculturists stating that grain which was wet put in, and early, has not needed rain to mature, the showers are held to about clinch prospects on some grains not put in so early.

The weather bureau reported a forecast including probable thundershowers again tonight and Saturday. Cool weather continued, with the maximum for Bismarck yesterday 66 degrees. At only one point in the state did the thermometer reach 80 degrees, this being at Lisbon. The crop weather on the whole continues exceptionally favorable.

Other reports told of heavy rains in Emmons county, Temvik especially reporting a big rain.

There was a shower reported north of Mandan a short distance which did not extend far in Oliver county. There was reported to have been a heavy rain at Dodge and Glen Ullin and rain south in Morton county.

PETRIFIED WOOD ON EXHIBITION

Large piece of petrified wood was brought here from the petrified forest of the Badlands by Besse U. Smith, and exhibited at the Grand Pacific Hotel. She also placed on exhibition many fine views of the Badlands. The petrified forest is being visited by an unusually large number of people this year.

WILL CHECK TOURIST CARS

Checkers to be Placed on Bridge Here

With an unusually large tourist traffic reported on the National Parks Highway, A. W. Tracy of Bismarck, general manager, has requested the State Highway Commission to make a check of traffic here at the Liberty Memorial Bridge, and this will be done next week.

The traffic, according to Mr. Tracy, is 50 percent or greater than last year, according to reports from most tourist camps. The Bismarck Association of Commerce travel bureau is daily recording parties from far eastern cities and the local tourist camp has been coping for many tourists each night.

Mr. Tracy left today for Jamestown, checking mileage on the highway.

CHINESE SCRUB TEETH

Peking, July 18.—China has become a nation of tooth scrubbers. This form of personal hygiene has swept the country like a storm. Tooth pastes and powders are being sold in unprecedented quantities in almost every kind of Chinese store.

Weather Report

For twenty-four hours ending at noon.

Temperature at 7 a. m. 60

Highest yesterday 66

Lowest yesterday 52

Lowest last night 58

Precipitation13

Highest wind velocity 18

Weather Forecast

For Bismarck and vicinity: Local thundershowers, probably tonight and Saturday. Not much change in temperature.

For North Dakota: Local thundershowers probably tonight and Saturday. No change in temperature.

General Weather Conditions

The pressure is low over the Rocky Mountain region and precipitation occurred over the Plains States, Rocky Mountain region and along the north Pacific coast. No rain has been reported from north-eastern North Dakota and very little occurred in western North Dakota. High pressure, accompanied by fair weather prevails over the Great Lakes region. Temperature changes have been slight and cool weather continued in all sections.

ORRIS W. ROBERTS, Meteorologist.

A farmer at Lichtenburg, South Africa, recently found a crow that had choked to death on a 7-1-2 carat diamond.

MEDICINE OR DIET—WHICH WOULD DO HIM THE MOST GOOD?

COULDN'T FIND OUT HOW TO PUT UP TABLE, TOURISTS USE HOTELS

Couple in Bismarck Spent \$110 For Outfit Only to Discard It Few Days Later—Tell of Experiences Traveling in 30 States in Five Months

Across the United States in five months may not be such a whale of a record, but traveling through thirty states in five months by motor, with several stops of two or three weeks in a number of places where relatives are located, is not a bad achievement. It has been made by Mr. and Mrs. Charles H. Francis of Los Angeles, California, who have accomplished this feat since Feb. 1, 1924.

The Francis' are now traveling in a touring car, making the third car they have had since February. They do not camp. Mrs. Francis said that when they started, her husband had the camping fever, and bought a handsome and complete outfit for \$110.

"We spent three nights learning how to put up the bed, and we never did find out how to unfold the table, so we sold the outfit a week later for \$40," Mrs. Francis explained, but Mr. Francis was not listening.

The Francis' have been through the eastern, southern and a large number of northern and middle western states, being now on their homeward journey. Their present trip is purely a pleasure trip, though Mr. Francis has traveled for years as a salesman.

They have had a number of interesting experiences on their trip, some almost uncomfortably so, as for instance when they were crossing the desert in Arizona, and were unceremoniously accosted by three holdup men.

"I told Mr. Francis to step on the gas, and he did, but the chuck holes made the ride which followed rather too exciting," Mrs. Francis said. "I did not know whether it would be better to be robbed or to be flung through the top of the car."

Though they are Californians they did not spend the afternoon talking about it. Their reason for living there is briefly explained. Mr. Francis has the asthma, and finds more relief there than anywhere else. They prefer to live on the Atlantic coast.

"From here we are going to Mexico," said Mr. Francis. "We want to see Roosevelt's ranch."

AGED SUITORS FIGHT LEADS TO KILLING

Inmates of Relief Home in San Francisco Rivals For Woman's Favor

San Francisco, July 18.—Hugh McCloskey, 71, is dead and Henry Mueller, 75, is in the city prison today with a manslaughter charge filed against him, as the result of a long-standing rivalry between the two aged men for the favor of a 70-year-old woman, which culminated in an open quarrel Wednesday.

All the principals in the case are inmates of the city and county relief home here.

According to the attendant at the home, McCloskey resented Mueller's attention to the woman. When the pair met on the stairs Wednesday McCloskey is declared to have threatened Mueller with his crucifix. Mueller parried with his cane and in the ensuing struggle McCloskey tumbled down the stairs, suffering injuries from which he died yesterday.

CHURCH BODY HONORS THEODORE G. NELSON

Fargo, July 18.—Theodore G. Nelson, a member of the church council of St. Mark's English Lutheran church, and Mrs. Nelson were surprised at their home, 1134 Tenth at N. last night by members of the council and their wives, the occasion being a farewell to Mr. Nelson, who will leave next month for Arizona.

In recognition of his services to the church, Mr. Nelson was presented with a Bible. Dr. N. J. G. Wickey, the pastor, making the speech, J. G. Halland voiced the appreciation of the council of Mr. Nelson's work.

FIRST UKULELE

Honolulu, July 18.—The ukulele is not a native instrument, records show here. A roving Portuguese—a guitar maker before he took to wandering through the tropical seas—fashioned the first ukulele and taught the grass-shirted natives to play it.

BIG ADVANCES REGISTERED IN FUTURES BIDS

Speculative Value of Wheat, Corn, Other Grains Is Increased

AFFECTS FALL PRICES

December Corn Quotations, For New Crop, Are Considered Unusually High

Chicago, July 18.—Upwards of a billion dollars has been added to speculative values of the grain crops of the United States and the Canadian Northwest as a result of the advance in the last few weeks of approximately 30 cents a bushel in the United States and an increase of 42 cents a bushel in Canada.

July wheat, which sold at 1.02 7/8 on July 9 touched 1.30 1/4 yesterday, gaining 4 1/2 cents for the day, while Winnipeg was up to \$1.40 1/4, an advance of 4 1/2 cents. All cereal futures except September corn were quoted here yesterday at new high prices for the crop.

Speculative trading on the Board of Trade on Wednesday reached its highest since May 1, 1923, with an aggregate of more than 110,000,000 bushels for all grains of which 69,000,000 bushels were wheat, for future delivery.

Six weeks ago trading was around 20,000,000 bushels a day.

Corn's Advance

July corn advanced from 78 cents to \$1.13 cents in about six weeks and cash No. 2 yellow corn brought 1.16 1/4 here yesterday, the highest in several years. Oats sold at 61 cents and are up to 10 cents of late and rye brought 87 cents, a gain of 20 cents a bushel in the same time.

December corn, representing the new crop, which will be harvested this fall, sold at 71 1/2 cents on June 9 and was 94 1/2 cents at the finish yesterday, with the prospect of a crop of two billion five hundred and fifteen bushels for the country was considered by grain men theoretically to add over five hundred million dollars to the farmer's bank account.

Flour Also Rises

With the advance in wheat prices of wheat flour has taken an ascent. Prices were listed 20 cents a barrel yesterday to \$8.00 for best known brands of Minneapolis patents, making a gain of \$1.10 per barrel since June 9 and rye flour is up 75 cents to \$1.00 for the same period.

The poor prospects for the corn crop, with the promise of a yield of 2,515,000,000 bushels on July 1, the smallest, with two exceptions in 20 years, is considered responsible for the high prices prevailing for the grain. Hogs have also shared in the upward movement and touched \$8.10 yesterday, the highest price since last October and nearly \$1.00 increase lately.

All of the speculative grain markets are regarded by grain men as somewhat strained and extremely rapid price changes are expected.

FARMER TAKES HIS OWN LIFE

Financial Troubles Held Cause For Suicide

Jamestown, N. D., July 18.—Leaving a neighborhood picnic yesterday afternoon, Theodore Dorf, 65, prominent farmer of near Eldridge, Stutsman county, went to his barn and committed suicide by hanging. His wife and daughter found his body shortly before 4 o'clock. Financial troubles and ill health are blamed by Mr. Dorf, up to the last few years, had been rated as wealthy but all of his wealth was in farms, and last fall foreclosures made on his fine farm and he had no hopes of redeeming it. During the winter he suffered from heart trouble. A widow and a number of children, all grown, survive.

ASKS PROBE OF WISHEK PROTEST

The state canvassing board, at the conclusion of its day's examination of the vote of the June 25 primary, referred to the Attorney-General a request made by F. O. Hellstrom on behalf of Wishek citizens to have discarded the vote in Wishek precinct on the ground that persons unable to read and write the English language were not permitted to vote.

The board, in a resolution, urged the Attorney-General to investigate the matter "to the end that criminal action may be started against any and all persons in any way implicated in disfranchising or attempting to disfranchise any legal voter."

OILCLOTH CEILING

Washington, July 18.—Oilcloth ceilings, full of small holes over a thick layer of felt, will eliminate office noises, according to Clifford M. Swan, consulting engineer. Such a ceiling does away with reverberation, he says.

BILLION IS ADDED TO CROP VALUES

PROGRESS OF CONFERENCE IS SATISFACTORY

Rocks Ahead of the Allied
Conference on German
Plans, However

SOME OF PROBLEMS

How Penalties Shall be Im-
flicted Upon Germany Is
One of the Problems

London, July 18.—Satisfactory progress of the inter-allied conference, called for putting into execution the Dawes report on German reparations, was indicated today by work already performed by the committees appointed by the opening session Wednesday.

One of the important parts of the conference work, the perfecting of an organization to be set up in each country for the handling of payments to be made by Germany under the new scheme, was completed yesterday and a draft of the proposal embodying the agreement is ready for the approval of a plenary session of the conference which probably will be held tomorrow.

Other Troubles
The most optimistic of the delegates from 10 nations who have gathered in London do not suggest that the most important or the most difficult period had been past. Real rocks around which the allied plenipotentiaries must steer a careful course lie hidden in two subdivisions of the conference known as committees one and two.

The first committee is dealing with the problem of creating confidence for an international loan for Germany and the question of an American member for the reparations commission as arbiter on the subject of default. Committee No. 2 which is attempting to devise means to restore the fiscal and economic unity of Germany has encountered difficulties owing to the French request that the proposed international loan, upon which the whole workings of the Dawes plan depends, shall be underwritten before the question of German unity is settled.

Problem of Penalty.
One problem is what penalty to inflict if Germany willfully defaults under the Dawes schedule. On the question of sanction in case of default, the French delegates decline to discuss the proposals they are understood to have made at committee meetings yesterday. It has been indicated, however, that France favors putting the sanction into definite shape so that complete programs will be ready for application at any time that Germany is adjudged to have defaulted.

Col. James A. Logan Jr., adviser to Ambassador Kellogg in a conference, yesterday attended the sessions of committee No. 1 and was of the opinion that as much progress had been made as it was reasonable to expect under the circumstances. Ambassador Kellogg did not participate in yesterday's conference work.

LEAGUERS TO CONTROL G. O. P.

Elect Majority of Members of
State Committee

Nonpartisans will again control the Republican state central committee, it was indicated today with reports from many districts of the election of state committeemen received.

In several counties there were votes to support all regular Republican nominees, including Ransom and Morton counties, the latter's action being dependent upon support for the Republican national ticket. In Ransom county the third party movement was deplored.

SHIELDS SON, OFFENDS COURT

St. Paul, July 18.—W. J. Baxter a North Dakota farmer, endeavored to shield his 15 year old son from prosecution for driving an automobile recklessly and almost went to the workhouse Tuesday night after his automobile had struck and slightly damaged a second machine. The father said he was driving when the accident occurred, and a charge of driving while drunk was made against him.

Judge Conrad Olson was about to send Baxter to the workhouse when the son admitted that he was responsible for the accident. That saved Baxter from the workhouse, but he was fined \$100 for being drunk.

Entire South Soo Line as Far
as Hankinson Reports
Good Rain in Night

SHOWERS ALSO NORTH

Weather Bureau Predicts Con-
tinuation of Thunderstorms
in This Area

Thundershowers which covered a considerable territory south and southeast of Bismarck last night virtually clinched crop prospects in a large area of Emmons, Logan and McIntosh counties, according to information to The Tribune today.

The showers which fell in Bismarck, amounting to thirteen hundredths of an inch of rain, extended north to Washburn, but was light. The Soo line reported a heavy rain over their division as far southeast as Hankinson and on the Pollock line, which goes straight down to the South Dakota border.

Dr. Wolverton of Linton, Emmons Co., declared there was a heavy rain from 2 to 7 a. m., with 1.55 inches of rain falling. The Methodist church at Linton was struck by lightning, but no great damage resulted.

Dr. Wolverton, who records the rainfall at Linton for the United States weather bureau, though the record is not included in the daily crop and wheat report from 17 state stations, said in a telephone message to The Tribune that he had telephoned to various parts of Emmons county and a fine rain was reported in all sections.

The only weather station south of here is at Napoleon, and it reported 2.36 of an inch of rain in the 24-hour period ending at 7 a. m. today, a good rain.

The weather stations in the state reported rain as follows: Bismarck 1.33; Ellendale 1.16; Jamestown 2.26; Larimore 1.10; Lisbon 1.40; Napoleon 2.36; Williston 1.10; Moorhead, Minnesota, .02.

The rain in Bismarck, combined with rain the night before, gave a quarter of an inch of rain in two nights which, combined with cool weather, is expected to have an advantageous effect upon crops in this immediate territory. With many agriculturists stating that grain which was well put in, and early, has not needed rain to mature, the showers are held to about clinch prospects on some grains not put in so early.

The weather bureau reported a forecast including probable thundershowers again tonight and Saturday. Cool weather continued, with the maximum for Bismarck yesterday 66 degrees. At only one point in the state did the thermometer reach 80 degrees, this being at Lisbon. The crop weather on the whole continues exceptionally favorable.

Other reports told of heavy rains in Emmons county, Temvik especially reporting a big rain.

At Fargo, a heavy shower reported north of Mandan a short distance which did not extend far in Oliver county. There was reported to have been a heavy rain at Dodge and Glen Ullin and rain south in Morton county.

FIND INDIAN BONES

Westfield, Mass., July 18.—Boys playing along the bank of the Westfield River recently uncovered bones, believed to be those of an Indian interred hundreds of years ago. The high waters of recent months apparently cut into the old grave.

CHINESE SCRUB TEETH
Peking, July 18.—China has become a nation of tooth scrubbers. This form of personal hygiene has swept the country like a storm. Tooth pastes and powders are being sold in unprecedented quantities in almost every kind of Chinese store.

Weather Report

For twenty-four hours ending at noon.

Temperature at 7 a. m. 60
Highest yesterday 66
Lowest yesterday 52
Lowest last night 58
Precipitation13
Highest wind velocity 18

Weather Forecast
For Bismarck and vicinity: Local thundershowers probably tonight and Saturday. Not much change in temperature.

For North Dakota: Local thundershowers probably tonight and Saturday. No change in temperature.

The pressure is low over the Rocky Mountain region and precipitation occurred over the Plains States, Rocky Mountain region and along the north Pacific coast. No rain has been reported from northeastern North Dakota and very little occurred in western North Dakota. High pressure, accompanied by fair weather prevails over the Great Lakes region. Temperature changes have been slight and cool weather continued in all sections.

MEDICINE OR DIET—WHICH WOULD DO HIM THE MOST GOOD?

COULDN'T FIND OUT HOW TO PUT UP TABLE, TOURISTS USE HOTELS

Couple in Bismarck Spent \$110 For Outfit Only to Discard
It Few Days Later—Tell of Experiences Traveling
in 30 States in Five Months

Across the United States in five months may not be such a whale of a record, but traveling through thirty states in five months by motor, with several stops as a salesman. They have had a number of interesting experiences on their trip, some almost uncomfortably so, as for instance when they were crossing the desert in Arizona, and were unceremoniously accosted by three holdup men.

"I told Mr. Francis to step on the gas, and he did, but the chuck holes made the ride which followed rather too exciting," Mrs. Francis said. "I did not know whether it would be better to be robbed or to be flung through the top of the car."

Though they were Californians they did not spend the afternoon talking about it. Their reason for living there is briefly explained. Mr. Francis has the asthma, and finds more relief there than anywhere else. They prefer to live on the Atlantic coast.

"From here we are going to Mexico," said Mr. Francis. "We want to see Roosevelt's ranch."

PETRIFIED WOOD ON EXHIBITION

Large piece of petrified wood was brought here from the petrified forest of the Badlands by Bessie D. Smith, and exhibited at the Grand Pacific Hotel. She also placed on exhibition many fine views of the Badlands. The petrified forest is being visited by an unusually large number of people this year.

WILL CHECK TOURIST CARS

Checkers to be Placed on
Bridge Here

With an unusually large tourist traffic reported on the National Parks Highway, A. W. Tracy of Bismarck, general manager, has requested the State Highway Commission to make a check of traffic here at the Liberty Memorial Bridge, and this will be done next week. The traffic, according to Mr. Tracy, is 50 percent or greater than last year, according to reports from most tourist camps. The Bismarck Association of Commerce travel bureau is daily recording parties from far eastern cities and the local tourist camp has been caring for many tourists each night.

Mr. Tracy left today for Jamestown, checking mileage on the highway.

CHURCH BODY HONORS

THEODORE G. NELSON
Fargo, July 18.—Theodore G. Nelson, a member of the church council of St. Mark's English Lutheran church, and Mrs. Nelson were surprised at their home, 1134 Tenth st. N. last night by members of the council and their wives, the occasion being a farewell to Mr. Nelson, who will leave next month for Arizona.

In recognition of his services to the church, Mr. Nelson was presented with a Bible, Dr. N. J. G. Wickey, the pastor, making the speech. J. G. Halland voiced the appreciation of the council of Mr. Nelson's work.

FIRST UKULELE

Honolulu, July 18.—The ukulele is not a native instrument, records show here. A roving Portuguese—a guitar maker before he took to wandering through the tropical seas—fashioned the first ukulele and being visited by an unusually large number of people this year.

A farmer at Lichtenburg, South Africa, recently found a crow that had choked to death on a 7-12 carat diamond.

BIG ADVANCES REGISTERED IN FUTURES BIDS

Speculative Value of Wheat,
Corn, Other Grains Is
Increased

AFFECTS FALL PRICES

December Corn Quotations,
For New Crop, Are Con-
sidered Unusually High

Chicago, July 18.—Upwards of a billion dollars has been added to speculative values of the grain crops of the United States and the Canadian Northwest as a result of the advance in the last few weeks of approximately 30 cents a bushel in the United States and an increase of 42 cents a bushel in Canada.

July wheat, which sold at 1.03 7-9 on July 9 touched 1.30 1/2 yesterday, gaining 4 1/2 cents for the day, while Winnipeg was up to \$1.40 1/2, an advance of 4 1/2 cents. All cereal futures except September corn were quoted here yesterday at new high prices for the crop.

Speculative trading on the Board of Trade on Wednesday reached its highest since May 1, 1923, with an aggregate of more than 110,000,000 bushels for all grains of which 69,000,000 bushels were wheat, for future delivery.

Six weeks ago trading was around 20,000,000 bushels a day.

Corn's Advance
July corn advanced from 78 cents to \$1.13 cents in about six weeks and cash No. 2 yellow corn brought 1.16 1/2 here yesterday, the highest in several years. Oats advanced 6 1/2 cents and are up to 10 cents of late and rye brought 87 cents, a gain of 20 cents a bushel in the same time.

December corn, representing the new crop, which will be harvested this fall, sold at 71 1/2 cents on June 9 and was 94 1/2 cents at the finish yesterday, which on the prospective crop of two billion five hundred and fifteen bushels for the country was considered by grain men theoretically to add over five hundred million dollars to the farmer's bank account.

Flour Also Rises
With the advance in wheat prices of wheat flour has taken an ascent. Prices were listed 20 cents a barrel yesterday to \$8.00 for best known brands of Minneapolis. The advance gained a gain of \$1.10 per barrel since June 9 and rye flour is up 75 cents to \$1.00 for the same period.

The poor prospects for the corn crop, with the promise of a yield of 2,515,000,000 bushels on July 1, the smallest, with two exceptions in 20 years, is considered responsible for the high prices prevailing for the grain. Hogs have also shared in the upward movement and touched \$8.10 yesterday, the highest price since last October and nearly \$1.00 increase lately.

All of the speculative grain markets are regarded by grain men as somewhat strained and extremely rapid price changes are expected.

FARMER TAKES HIS OWN LIFE

Financial Troubles Held
Cause For Suicide

Jamestown, N. D., July 18.—Leaving a neighborhood picnic yesterday afternoon, Theodore Roof, 65, prominent farmer of near Eldridge, Stutsman county, went to his barn and committed suicide by hanging. His wife and daughter found his body shortly before 4 o'clock.

Financial troubles and ill health are blamed. Mr. Roof, up to the last few years, had been rated as wealthy but all of his wealth was in farms, and last fall foreclosure was made on his fine farm and he had no hopes of redeeming it. During the winter he suffered from heart trouble. A widow and a number of children, all grown, survive.

ASKS PROBE OF WISHEK PROTEST

The state canvassing board, at the conclusion of its day's examination of the vote of the June 25 primary, referred to the Attorney-General a request made by F. O. Hellstrom on behalf of Wishek citizens to have discarded the vote in Wishek precinct on the ground that persons unable to read and write the English language were not permitted to vote.

The board, in a resolution, urged the Attorney-General to investigate the matter "to the end that criminal action may be started against any and all persons in any way implicated in disfranchising or attempting to disfranchise any legal voter."

OILCLOTH CEILING
Washington, July 18.—Oilcloth ceilings, full of small holes over a thick layer of felt, will eliminate office noises, according to Clifford M. Swan, consulting engineer. Such a ceiling does away with reverberation, he says.

**HEARING ON
COUNTY BUDGET
SET FOR 25TH**

County Commissioners Will
Hear Objections Before
Entering Final Order

PROVIDES DECREASE

Hearing on the Bismarck county budget has been set for July 25 by the county commissioners, at which time taxpayers may enter objections or suggestions. The total budget, as tentatively fixed for the ensuing year is \$181,548.00 as

MAJOR'S BODY IS FOUND

Raleigh, S. C., July 17.—The body of Major Samuel H. McLeary was found 11 miles north of Cheraw, South Carolina, today by a searching party, according to an army officer who notified the Associated Press correspondent at Raleigh. The body was badly mangled, having been eaten by animals. Practically nothing was left on the body but bones. No clothing was found.

Cook by Electricity. It is Clean.

**OPTIMISM IS
RULE AS G. O. P.
PROGRESS TOLD**

Hopeful Reports Are Presented by Callers From Various Parts of U. S.

Washington, July 17.—President Coolidge's conference with William M. Butler, chairman of the Republican national committee, to map out further the immediate Republican campaign plans, was postponed today until early next week.

Mr. Butler had been expected to arrive in Washington in a day or so, but word was received at the White

House that the chairman had decided to complete all arrangements for the opening of the party headquarters in New York, before coming to Washington.

The postponement of the conference with his campaign manager will afford Mr. Coolidge further opportunity to gather reports on the political situation in various states. He was furnished with summaries on the situation in five states through the most extensive series of political conferences in many days at the White House.

The president's political callers included Raymond Benjamin, of San Francisco, who was state chairman in California for six years prior to 1922 and who had general charge of Republican activities in that state. Nevada, Oregon, Washington and Idaho in the 1920 campaign; Representative Vard, a Republican leader in Pennsylvania; Carmel Thompson, one of the Coolidge pre-convention managers, and a party leader in Ohio Senator Brandegee, of Connecticut,

and Representative McLaughlin, of Nebraska.

Secretary Weeks, returning from a vacation trip to Massachusetts, talked over political conditions in New England generally with Mr. Coolidge. All of the president's political callers said they presented hopeful reports to the nominee.

**JAPANESE TO
RAISE TARIFF**

Tokio, July 17 (By the A. P.)—Both houses of the Imperial Diet today passed the government bill raising the tariff on about 230 articles classed as luxuries, to an ad valorem duty of 100 percent.

CHERRY WORMS

Worms can be kept from late cherries by sprinkling with a little sweetened poison water on the upper surface of the leaves. The spray consists of one-half pound lead arsenate paste, two quarts molasses—not honey—and 10 gallons water.

OPEN SATURDAY EVENING

WINCHESTER PRIZE AWARD IS MADE HERE

Fritz Schulz of Burnt Creek is Awarded Annual \$25 School Prize

Fritz Schulz, son of Mr. and Mrs. Carl Schulz, living in Burnt Creek, who has attended the Richholt school here for the past two years, has been awarded the Walter H. Winchester prize of \$25 given annually to the pupil graduating from the eighth grade in Burleigh county who shall excel in arithmetic, it was announced today by Mrs. Nellie Evans, deputy county superintendent of schools, following the final hearing up of the test papers.

The examination given to determine the winner was held last Tuesday seven pupils taking it. Although the country districts are allowed a representation of six, only four were able to come for the competition. Bismarck had three, Fritz Schulz, Raymond Barth, Richholt school, and Anthony Faber, William Moore school. Those from the country were: Margery McDougal, Manning school district; Florence Neugebauer, Burnt Creek school; Bertha Piepkorn, Wing; and James Swank, McKenzie.

The award is based on three points, reasoning, accuracy and care in details, and neatness. It is given by Mrs. N. O. Ramstad and Mrs. E. J. Conklin, in memory of their father, Walter H. Winchester.

Fritz Schulz came to North Dakota from Germany about three years ago, with his parents. His progress in school is said to be very unusual.

CRAIG PLANS UPON APPEAL

Remains in Jail Pending Failure to Provide Bond

Fargo, July 18.—Transcript of testimony and proceedings at the trial in LaMoure county district court in which Ray Craig, former president of the closed Ransom County Farmers Bank of Lisbon, was convicted of fourth degree forgery and given two years in the state penitentiary, is being awaited by the defendant's counsel before perfecting a move for a new trial, according to Judge W. H. Burnett of Fargo, one of Craig's attorneys. An appeal to the state supreme court is contemplated, depending upon the outcome of the move for a new trial. In the meantime Craig is being held in the LaMoure county jail under a \$5,000 appeal bond.

LAFOLLETTE MEN GATHER

Washington, July 18.—Confronted with the task of perfecting a national campaign organization and of selecting a vice-presidential candidate more than a score of Senator LaFollette's chief supporters gathered here today for a series of conferences.

She Builds Garages

Mrs. Pearl G. Atkinson of Sacramento, Calif., is a portable garage builder with offices at Sacramento, Oakland, San Francisco, and San Jose. It all came about when she was left eight houses in payment of a debt. She had trouble renting the houses because there were no garages. She bought lumber, hired two men, and sailed in and helped them build garages. They were portable affairs and made such a hit that she started garage building as a business. 'Twas a success from the start.

MONTANA MAN IS HANGED

Bozeman, Mont., July 18.—Seth Orrin Danner was hanged in the county jail here at 2:19 o'clock this morning for the murder of Mrs. John Sprouse at Central Park, Montana, in November, 1920. Danner was pronounced dead four minutes after the trap was sprung. He seemed indifferent to the end.

Juice Of Lemon Whitens The Skin

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quarter-pint of the most wonderful skin whitener, softener and beautifier.

Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also as a freckle, sunburn, and tan bleach. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.

MRS. HAZEL TINDELL

MRS. TINDELL GAINED 27 LBS. ON TANLAC

"The Tanlac treatment is certainly grand. A year ago it gave me such a wonderful appetite and such good digestion that my weight increased from 123 to 150 pounds, and I have enjoyed the best of health ever since," is the glowing tribute paid the famous medicine recently by Mrs. Hazel Tindell, 1132 Jackson St., Dubuque, Iowa.

"When spring time came on last year I found my system all upset. My stomach and nerves were out of order, the color of health had left my cheeks and I did not have energy and strength to do my house work."

"But Tanlac soon corrected my troubles, brought the color of health back to my cheeks and left me feeling strong and well, just as I am now. I could not do otherwise than praise Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

VALLEY CITY LOSS \$20,000

Courthouse Fire Damage Not Over That, Says Hopton

The Valley City courthouse fire was not as serious as first reported, according to Harold Hopton, manager of the state fire and tornado insurance fund, whose adjusters have gone over the situation. Mr. Hopton said he did not believe the loss would exceed \$20,000. All that really burned, he said, was the roof, and damage was done by timbers dropping into the second floor. All of the vaults were intact and all records saved, he said, as well as most of the furniture.

Adjusters for the state and for the insurance companies which carried insurance offered to settle for \$8,000 on the building and \$4,000 on contents, according to Valley City reports. Mr. Hopton said all

checking was not completed, but that \$20,000 probably was a high estimate of the loss.

28 ALIENS SENTENCED

Hailed Before Judge Miller in Court at Fargo

Fargo, July 18.—Twenty-eight aliens, arrested and pleading guilty to a charge of entering the United States without a passport recently were today sentenced to three months each in the Cass county jail by Federal Judge Andrew Miller. The aliens came to this country from points in Europe ranging from points in Italy to the Scandinavian countries of the north.

At the same time Judge Miller sentenced Bernhard Penner, charged with smuggling aliens, to 16 months in the federal penitentiary at Leavenworth, Kansas. Penner's son, 17, received only 10 days in the county jail at Grafton.

The lightest sentence handed out was that of Mrs. Magdalena Holz, her young son and her nephew, Johann Maz, about 19, Germans, who must serve one day in the Pembina county jail.

A number of cases were temporarily passed for various reasons, ranging from misunderstanding owing to lack of knowledge of English on the part of some of the defendants to pleas of not guilty.

After their release from the county jail the aliens will be taken in charge by federal immigration officials with deportation possible.

MRS. C. W. ELLIOT DIES IN MAINE

Cambridge, Mass., July 18.—Word was received here today of the death of Mrs. Charles W. Elliott, wife of the president emeritus of Harvard University, at Asticou, Mount Desert, Maine.

After their release from the county jail the aliens will be taken in charge by federal immigration officials with deportation possible.

The lightest sentence handed out was that of Mrs. Magdalena Holz, her young son and her nephew, Johann Maz, about 19, Germans, who must serve one day in the Pembina county jail.

A number of cases were temporarily passed for various reasons, ranging from misunderstanding owing to lack of knowledge of English on the part of some of the defendants to pleas of not guilty.

MARKET NEWS

RAINS CHECK WHEAT PRICES

Some Parts of the Canadian Northwest Are Benefitted

Chicago, July 18.—Drenching rains in parts of the Canadian Northwest brought about a sharp downturn in wheat prices today as soon as the market opened. Selling was based largely on the opinion that wheat and oats which had been planted late would receive benefit even though much of the crop was past aid. Setbacks in Liverpool quotations also were a depressing factor. Chicago opening prices, which ranged from 7-8 to 4-34-c lower, September \$1.24 1-2 to \$1.26 3-4 and December \$1.28 to \$1.30, were followed by a rally of as much as 2-3-4 in some cases, and then by fresh declines.

Heavy selling kept the market weak during most of the day. Demand appeared to have been filled up at least for the time being. The close was unsettled, 4 cents to 4 1/2 cents net lower, September \$1.24 1/2 to \$1.26 1/2, and December \$1.27 1/2 to \$1.29 1/2.

CHICAGO LIVESTOCK

Chicago, July 18.—(U. S. Dept. of Agriculture).—Hog receipts 31,000. Steady to 10 cents higher. Lightweight hogs full advance. Top weight butchers \$8.10. Cattle receipts 4,000. Slow, better grades beef steers and yearlings very scarce. Top heavyweights \$10.25. Sheep receipts 14,000. Active, generally steady on all classes. Bulk fat native lambs \$14.00 to \$14.25.

ST. PAUL LIVESTOCK

St. Paul, July 18.—Cattle receipts 1,200. Slow, weak. Best steers and yearlings in very light supply. Top bulk 7.00 to 8.50. Fat she-stock 3.50 to 6.00. Canners and cutters 2.25 to 3.00. Bologna bulls dull, 3.75 to 4.25. Stockers and feeders slow, nominally steady. Calves receipts 1,000. Steady, quality considered. Best lights largely 3.00.

Hog receipts 5,500. Slow, steady to five cents higher. Bulk desirable 160 to 300 pound butchers 7.50 to 7.65. Top 7.65. Bulk packing sows 6.75 to 6.85. Few up to 7.00. Feeder pigs mostly 3.00. Sheep receipts 600. Bulk fat native lambs 12.50 to 13.50. Culls around 8.00. Light and handyweight fat ewes downward to 6.00. Heavies around 4.00.

MINNEAPOLIS GRAIN

Minneapolis, July 18.—Wheat receipts 157 cars compared with 128 cars a year ago. Cash No. 1 northern \$1.30 1/2 to \$1.35 1/2; No. 1 dark northern spring choice to fancy \$1.45 1/2 to \$1.53 1/2; good to choice \$1.35 1/2 to \$1.43 1/2; ordinary to good \$1.32 1/2 to \$1.35 1/2; July \$1.30 1/2, September \$1.29 1/2; December \$1.31. Corn No. 3 yellow \$1.05; oats No. 3 white 50 1/2 to 51 1/2; barley 60 to 80 cents; rye No. 2, 78 1/2 to 79 1/2; flax No. 1, \$2.46 to \$2.49.

CHICAGO LIVESTOCK

Chicago, July 18.—Butter lower. Receipts 11,455 tubs. Creamery extras 38; standards 38; extra firsts 37 to 37 1/2; firsts 36 1/2 to 36 3/4; seconds 33 to 34; centers, cheese unchanged; eggs unchanged; receipts 13,676 cases. Firsts 25 to 26; ordinary firsts 24 to 24 1/2; storage pack firsts 26 1/2; poultry higher; fowls 16 to 21 cents; broilers 28 to 35 cents; roosters 14 cents.

MINNEAPOLIS FLOUR

Minneapolis, July 18.—Flour unchanged to 10 cents higher. In earlond lots family patents quoted at 7.75 to 8.00 a barrel in 95-pound cotton sacks. Shipments 48,798 barrels. Bran \$24.00.

Beware Old Fraud Under a New Name

Government Warns Against "Resurrection Plant" Fakers

By NEA Service
Washington, July 18.—Beware the resurrection plant fraud, warns the U. S. Department of Agriculture. Various concerns have advertised this plant under different names, and usually at prices far in excess of its market value. It is often sold under the name "Rose of Jericho" or "Rose of Sharon," said to have been obtained from the Holy land and to have been mentioned by "Solomon, Isaiah and other prophets."

The circular of one dealer calls it "Semper Viva or Rose of Jericho," offers it for the modest price of 25 cents and describes it as a "deodorizer" and "a preventive of disease."

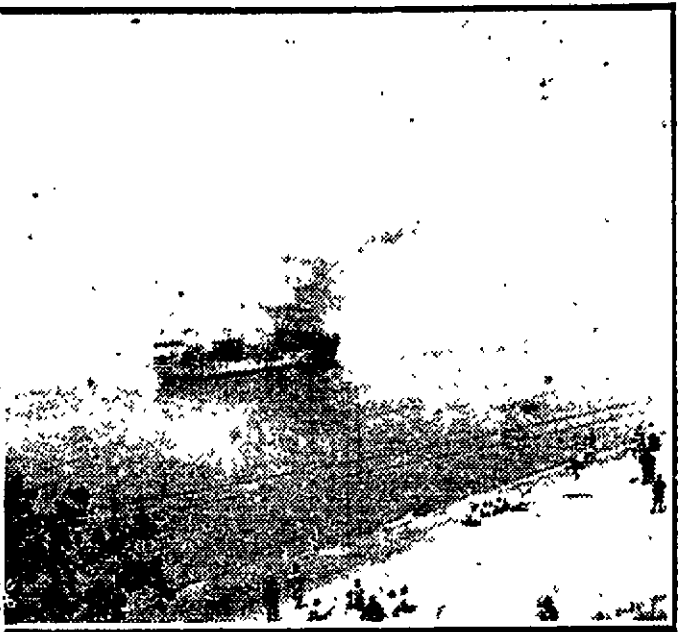

Another concern calls it the "Persian Plant" or "Cinnamon Rose." The plant is said to bloom every 30 days, bearing "the most fragrant flowers in existence." Resurrection plant is, of course, not a seed plant,

PERSHING AT BELGIUM'S SHRINE

General John J. Pershing, while in Brussels, paid his respect to the memory of Belgium's unknown soldier. He and his party are seen here arriving at the tomb.

ALL ON BOARD SAVED THEMSELVES!

Dr. W. I. Baum, commodore of the Chicago Yacht Club, his wife and two children and the crew of six were compelled to make for shore in a lifeboat when a fire on board the 120-foot gasoline yacht Merwyn got beyond control. The blaze started five miles off South Haven, Mich., in Lake Michigan. Coast guards towed the flaming craft in to the beach. Here the flames are seen eating it up. The Merwyn, valued at \$125,000, was the flagship of the Chicago club's fleet.

DEMOCRATS BROKE RECORD IN MORE WAYS THAN ONE

By Harry B. Hunt
NEA Service Writer

New York, July 18.—Well, the Democratic convention, as might have been expected when Tex Rickard arranged to have it held in Madison Square Garden, was a break-out.

It broke all records for number of sessions, number of ballots, amount of money spent by delegates, for high hopes wrecked and amusements engendered.

The total expended in dollars and cents to stage the Democratic convention, exclusive of delegate expenses, according to the New York Convention Committee, was somewhat in excess of \$800,000.

This committee had arranged its expenditures on the basis of a convention not exceeding two weeks in duration. When the deadlock carried the session over into the third week, the local committee passed the further financing of the show over to the Democratic National Committee.

As this committee had a balance of only about \$100,000, it immediately began to prune expenses and to put on pressure to bring about a nomination.

Most of the ushers were discharged, the lighting diminished and corners cut generally in an effort to save pennies for the later expenses of the campaign. Enough was saved out of cash in hand to pay for the auditing of the convention bills and to move Democratic headquarters back to Washington.

To provide cash for the campaign ahead, however, the Victory Clubs will have to be called on for contributions. No \$5 check will be rejected!

The selection of Davis to oppose Coolidge put the campaign on an intellectual level seldom reached in American politics. That is, so far as the personal qualities of the two men at the top of their respective tickets go.

Neither is of what is generally known as the politician type. Although both are lawyers, Coolidge has spent more time holding office than Davis and Davis more time practicing law than Coolidge. As a lawyer, Davis carries international as well as national recognition, having been made, during his term as ambassador to the Court of St. James, an honorary member of the Middle Temple.

Much has been said recently about Davis' employment as counsel for Wall street interests, including J. P. Morgan and Co. This inevitably will be made one of the points of opposition during the campaign.

As a balance to this, emphasis is placed by Davis' backers on the fact that he once was attorney without fee or retainer, for Eugene Debs and "Mother" Jones.

This was in the days when Davis, a young lawyer without clients, had just hung out his shingle at Clarkstown, W. Va.

Debs and "Mother" Jones came to town to take a hand in a campaign to organize mine workers thereabouts. West Virginia mine owners, then as now, didn't want their workers organized, and also controlled, then as now, the local authorities.

So Debs and "Mother" Jones were arrested on some technical charge and put behind the bars. Young Davis saw a chance to try out some of his newly acquired legal technique. His friends, however, insist that what moved him was a sense of injustice in the strong-arm methods employed by the mine workers.

Anyway, he went over to the jail, volunteered his services to the union workers and shortly had them free again. That story, doubtless, will be told with much emphasis in union circles during the campaign.

BOOTLEGGERS HIRE MEN TO SERVE 'TIME'

U. S. District Attorney Plans to Photograph Them to Prevent Such Action

STAYS PERMIT PLAN

Duluth, July 18.—Because the government suspects that convicted bootleggers are hiring substitutes to serve their sentences in county jails and prisons, the government plans to photograph bootleggers to prevent such substitution, LaFayette French, Jr., United States district attorney, announced today.

At present there is no practical way to tell whether the man who walks into the county jail to which John Doe, bootlegger, has been sentenced, and who says, "I am John Doe, I have come to serve my time," really is Doe or a man hired by Doe to sojourn as the government's guest for the period of the sentence, while Doe spends his time in the profitable liquor vending pursuit to which he has grown accustomed, charging the pay of his substitute presumably, to overhead, Mr. French said.

Stays Permit Substitutions

Many bootleggers, upon conviction, get a stay of a few days in their sentences, presumably to wind up their affairs, and it is the opinion of the government that this interval of a week or so, some times more, permits the substitution. Frequently court adjourns for the term while the bootleggers under sentence are enjoying freedom under bond, he said, and when the men come to surrender they do not face the prohibition agents, the government attorneys, nor the judges who convicted them, but jailers and sheriff's unfamiliar with their physiognomy.

The opportunity for substitution of these prisoners is easily apparent, Mr. French said, and it is the government's belief that it is going on at present and has been for some time, though he said it is difficult to prove.

Photos to Ban Substitutions

The taking of photographs was decided upon, and the pictures may be used in much the same manner upon commitment papers in the future as they are upon passports and other similar papers. This method, Mr. French said, is certain that the penalties handed out by federal judges will be paid by the men for whom they are intended and not by second parties.

In addition to preventing substitution of prisoners, Mr. French said, the photographs also could serve in identifying some of the men who, arrested for the second or third times, use fictitious names in order to avoid more serious jail sentences, or possible imprisonment at Leavenworth.

"This work should be in charge of prohibition forces," Mr. French said, "and such an arrangement would have been made some time ago when the reports of the operations of the bootleggers first reached us, but for the fact that there were no funds available. However, some such arrangement is necessary to prevent the liquor law violators from escaping serving their time in jail."

Mr. French said the matter of substitution by the bootleggers in jails has been placed before S. B. Quale, state prohibition director, along with information concerning alleged laxness of certain jailers.

In Devonshire, England, a sprig of loosestrife is often fastened around the neck of a quarrelsome bullock to stop him from fighting.

ROBBER SHOOT'S FARGO MAN

Larry Lauther Wounded in Home of a Friend

Fargo, July 18.—Larry Lauther is in St. Luke's hospital with a bullet in his left shoulder as a result of an encounter with an unknown man caught in the act of robbing the E. F. Moore home, 1226 Eight St. S., at an early hour this morning.

The burglar escaped but Lauther believes he was also wounded in the exchange of shots.

Lauther, who is employed at the Merchants National bank, had been requested by Mr. Moore to stay at the house last night while the Moore family was at the lake.

As he entered the house at midnight he noticed that the back door was unlocked and immediately was on the alert. Passing through the kitchen he had stepped into the front hall when he saw a man coming towards him in the dark. He immediately fired, according to his story, and the burglar returned the fire, hitting him in the shoulder as he passed him attempting to escape by the way Lauther had entered. Lauther fired again as the burglar fled.

Great men live ordinarily longer than ordinary individuals, according to statistics.

A Belfast woman has sailed around the world 19 times and has covered more than a million miles.

"The Way of a Man"

Author of "The Covered Wagon" and "North of 36"

A Great Romance of Pioneer Days
Danger! Daring! Peril!

A drama of frontier life.
It moves like Niagara!
It thrills like lightning!

Follow the Trail of the Brave!

Let us look at a three-ring circus and marvel. Here are literally hundreds of people, hundreds of animals, and more paraphernalia than you find in a small-sized factory—all on the move.

Here is a complete city, set up every day in a strange place—giving a parade and two performances—taken down, packed away, loaded on a train, moved to another city and set up again.

Any business can learn something about efficiency from a circus.

Take the "24-hour man" as one example.

The "24-hour man" goes one day ahead of the circus. He contracts for all the food for this army of performers. He arranges to have a local bakery deliver bread; he buys vegetables and meat; he buys tons of hay for the horses and elephants.

The "24-hour man" sees the city officials. He arranges for a license; he arranges for water, piped to "the lot;" sometimes he arranges for electricity, he sees that "the lot" itself is clear and ready for occupancy the next day.

Then comes the circus. All it has to do is go to "the lot," set up, give its parade and its two performances.

If it were not for the "24-hour man" the circus itself would stand a fair chance of wasting its time and spending its energy running down and taking care of the details which one man handled so efficiently the day before.

Does Your Business Need a 24-Hour Man?

The "24-hour man" of business is printing.

Printing takes care of a thousand details which would otherwise fall upon a salesman.

Printing thus helps your salesman—whether they are in a retail store or traveling "on the road." It enables your salesman to perform as they are intended to perform—by bringing in sales.

Without printing, any salesman must waste time in explaining your policy—building confidence—explaining the merits of merchandise—removing obstacles to buying, from the purchaser's mind.

With printing, you can do these things for your salesman.

That's just one advantage of printing. Let us tell you more of them.

MARKET NEWS

RAINS CHECK
WHEAT PRICESSome Parts of the Canadian
Northwest Are Benefitted

Chicago, July 18.—Drenching rains in parts of the Canadian Northwest brought about a sharp downturn in wheat prices today as soon as the market opened. Spilling was based largely on the opinion that wheat and oats which had been planted late would receive benefit even though much of the crop was past aid. Setbacks in Liverpool quotations also were a depressing factor. Chicago opening prices, which ranged from 7-8 to 4-34 lower, September \$1.24 1-2 to \$1.26 3-4 and December \$1.28 to \$1.30, were followed by a rally of as much as 2-3-4 in some cases, and then by fresh declines.

Heavy selling kept the market weak during most of the day. Demand appeared to have been filled up at least at the time being. The close was unsettled, 4 cents to 4 1/2 cents net lower, September \$1.24 1/2 to \$1.24 3/4 and December \$1.27 1/2 to \$1.27 3/4.

CHICAGO LIVESTOCK

Chicago, July 18.—(U. S. Dept. of Agriculture).—Hog receipts 31,000. Steady to 10 cents higher. Lightweight sows full advance. Top weight butchers \$8.10.

Cattle receipts 4,000. Slow, better grades beef steers and yearlings very scarce. Top handyweights \$10.25.

Sheep receipts 14,000. Active, generally steady on all classes. Bulk fat native lambs \$14.00 to \$14.25.

ST. PAUL LIVESTOCK

St. Paul, July 18.—Cattle receipts 1,200. Slow, weak. Best steers and yearlings in very light supply. Top bulk 7.00 to 8.50. Fat she-stock 3.50 to 6.00. Canners and cutters 2.25 to 3.00. Bologna bulls dull, 3.75 to 4.25. Stockers and feeders slow, nominally steady. Calves receipts 1,000. Steady, quality considered. Best lights largely \$3.00.

Hog receipts 5,500. Slow, steady to five cents higher. Bulk desirable 160 to 300 pound chubs 7.50 to 7.65. Top 7.65. Bulk packing sows 6.75 to 6.85. Few up to 7.00. Feeder pigs mostly 6.00.

Sheep receipts 300. Bulk fat native lambs 12.50 to 13.50. Culls around 8.00. Light and handyweight fat ewes downward to 6.00. Heavies around 4.00.

MINNEAPOLIS GRAIN

Minneapolis, July 18.—Wheat receipts 157 cars compared with 128 cars a year ago. Cash No. 1 northern \$1.30 1/2 to \$1.35 1/2; No. 1 dark northern spring choice 7.50 to \$1.45 1/2 to \$1.53 1/2; good to choice \$1.36 1/2 to \$1.44 1/2; ordinary to good \$1.32 1/2 to \$1.35; July \$1.30 1/2; September \$1.29 1/2; December \$1.31.

Corn No. 3 yellow \$1.05; oats No. 3 white 50 1/2 to 51 1/2; barley 65 to 80 cents; rye No. 2, 78 1/2 to 79 1/2; flax No. 1, \$2.46 to \$2.49.

CHICAGO LIVESTOCK

Chicago, July 18.—Butter lower. Receipts 11,455 tubs. Creamery extras 38; standards 38; extra firsts 37 to 37 1/2; firsts 35 1/2 to 36 1/2 cents; seconds 33 to 34 1/2 cents; cheese unchanged; eggs unchanged; receipts 13,676 cases. Firsts 25 to 26; ordinary firsts 24 to 24 1/2; storage pack firsts 26 1/2; poultry higher; fowls 16 to 21 cents; broilers 28 to 35 cents; roosters 14 cents.

MINNEAPOLIS FLOUR

Minneapolis, July 18.—Flour unchanged to 10 cents higher. In carload lots family patents quoted at 7.75 to 8.05 a barrel in 98-pound cartons. Shipments 48,798 barrels. Bran \$23.00.

Beware Old Fraud
Under a New NameGovernment Warns Against
"Resurrection Plant"
Fakers

By NEA Service

Washington, July 18.—Beware the resurrection plant fraud, warns the U. S. Department of Agriculture. Various concerns have advertised this plant under different names, and usually at prices far in excess of its market value. It is often sold under the name "Rose of Jericho" or "Rose of Sharon," said to have been obtained from the Holy Land and to have been mentioned by "Solomon, Isaiah and other prophets."

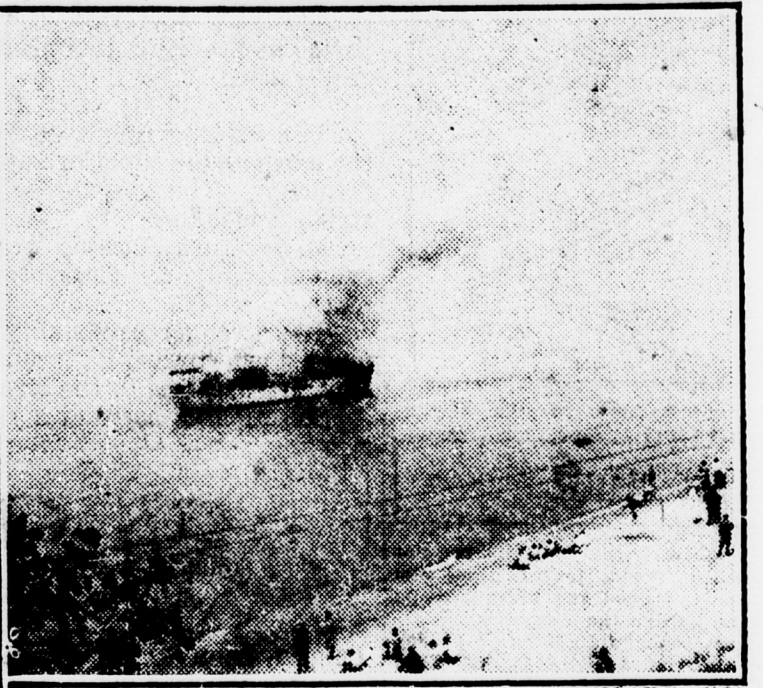

The circular of one dealer calls it "Semper Viva or Rose of Jericho," offers it for the modest price of 25 cents and describes it as a "deodorizer" and "a preventive of disease." Another concern calls it the "Persian Plant" or "Cinnamon Rose." The plant is said to bloom every 30 days, bearing "the most fragrant flowers in existence." Resurrection plant is, of course, not a seed plant,

PERSHING AT BELGIUM'S SHRINE

General John J. Pershing, while in Brussels, paid his respect to the memory of Belgium's unknown soldier. He and his party are seen here arriving at the tomb.

ALL ON BOARD SAVED THEMSELVES!

Dr. W. L. Baum, commodore of the Chicago Yacht Club, his wife and two children and the crew of six were compelled to make for shore in a lifeboat when a fire on board the 120-foot gasoline yacht Merwyn got beyond control. The blaze started five miles off South Haven, Mich., in Lake Michigan. Coast guards towed the flaming craft in to the beach. Here the flames are seen eating it up. The Merwyn, valued at \$125,000, was the flagship of the Chicago club's fleet.

DEMOCRATS BROKE RECORD
IN MORE WAYS THAN ONEBy Harry B. Hunt
NEA Service Writer

New York, July 18.—Well, the Democratic convention, as might have been expected when Tex Rickard arranged to have it held in Madison Square Garden, was a knock-out.

It broke all records for number of sessions, number of ballots, amount of money spent by delegates, for high hopes wrecked and animosities engendered.

The total expended in dollars and cents to stage the Democratic contest, exclusive of delegates' expenses, according to the New York Convention Committee, was somewhat in excess of \$800,000.

This committee had arranged its expenditures on the basis of a convention not exceeding two weeks in duration. When the deadlock carried the session over into the third week, the local committee passed the further financing of the show over to the Democratic National Committee.

As this committee had a balance of only about \$100,000, it immediately began to prune expenses and to put on pressure to bring about a nomination.

Most of the ushers were discharged, the lighting diminished and corners cut generally in an effort to save pennies for the later expenses of the campaign. Enough was saved out of cash in hand to pay for the auditing of the convention bills and to move Democratic headquarters back to Washington.

To provide cash for the campaign ahead, however, the Victory Clubs will have to be called on for contributions. No \$5 check will be rejected!

The selection of Davis to oppose Coolidge puts the campaign on an intellectual level seldom reached in American politics. That is, so far

bears no flowers and is odorless. The true "Rose of Jericho" is a small white-flowered annual of the mustard family. It is a native of desert regions from Arabia and Syria to Algeria, and is supposed to be the "rolling thing before the whirlwind" mentioned in Isaiah.

After flowering the leaves fall off and the branches become hard and woody and roll up into a ball, bearing the seed pods inside. In this state the plants, uprooted by the wind, are blown about the desert.

When the winter rains fall the branches spread back, the pods open, and the seeds quickly germinate. Dried plants retain for years the property of opening when moistened, although they do not "come to life" in the proper sense of the words.

Resurrection plant bears no flowers, has no fragrance or insecticidal value and is in no way connected with the Holy Land. It is a native of the deserts from Texas southward into Mexico.

OPIUM SMOKING VOGUE

Shanghai, July 18.—Opium traffic has taken a new hold on the Orient. Wheat and bean farms are being turned into opium farms. Government authorities who once opposed opium in fiery parliamentary talks are now advocating the narcotic.

Bottles of milk should be buried in sawdust during warm weather.

as the personal qualities of the two men at the top of their respective tickets go.

Neither is of what is generally known as the politician type. Although both are lawyers, Coolidge has spent more time holding office than Davis and Davis more time practicing law than Coolidge.

As a lawyer, Davis carries international as well as national recognition, having been made, during his term as ambassador to the Court of St. James, an honorary member of the Middle Temple.

Much has been said recently about Davis' employment as counsel for Wall Street interests, including J. P. Morgan and Co. This inevitably will be made one of the points of opposition during the campaign.

As a balance to this, emphasis is placed by Davis' backers on the fact that he once was attorney, without fee or retainer, for Eugene Debs and "Mother" Jones.

This was in the days when Davis, a young lawyer without clients, had just hung out his shingle at Clarkburg, W. Va.

Debs and "Mother" Jones came to town to take a hand in a campaign to organize mine workers thereabouts. West Virginia mine owners, then as now, didn't want their workers organized, and also controlled, so Debs and "Mother" Jones were arrested on some technical charge and put behind the bars. Young Davis saw a chance to try out some of his newly acquired legal technique. His friends, however, insist that what moved him was a sense of injustice in the strong-arm methods employed by the mine workers.

He went over to the jail, volunteered his services to the union workers and shortly had them free again. That story, doubtless, will be told with much emphasis in union circles during the campaign.

BOOTLEGGERS
HIRE MEN TO
SERVE 'TIME'U. S. District Attorney Plans
to Photograph Them to
Prevent Such Action

STAYS PERMIT PLAN

Duluth, July 18.—Because the government suspects that convicted bootleggers are hiring substitutes to serve their sentences in county jails and prisons, the government plans to photograph bootleggers to prevent such substitution, LaFayette French, Jr., United States district attorney, announced today.

At present there is no practical way to tell whether the man who walks into the county jail to which John Doe, bootlegger, has been sentenced, and who says, "I am John Doe," really is Doe or a man hired by Doe to sojourn as the government's guest for the period of the sentence, while Doe spends his time in the profitable liquor vending pursuit to which he has grown accustomed, charging the pay of his substitute prisoner, to overhead, Mr. French said.

Stays Permit Substitutions Many bootleggers, upon conviction, get a stay of a few days in their sentences, presumably to wind up their affairs, and it is the opinion of the government that this interval of a week or so, some times more, permits the substitution. Frequently court adjourns for the term while the bootleggers under sentence are enjoying freedom under bond, he said, and when the men come to surrender they do not face the prohibition agents, the government attorneys, nor the judges who convicted them, but jailers and sheriffs unfamiliar with their physiognomy.

The opportunity for substitution of these prisoners is easily apparent, Mr. French said, and it is the government's belief that it is going on at present and has been for some time, though he said it is difficult to prove.

Photos to Ban Substitutions The use of photographs has been decided upon, and the pictures may be used in much the same manner upon commitment papers in the future as they are upon passports and other similar papers. This method will make it certain that the penalties handed out by federal judges will be paid by the men for whom they are intended and not by second parties.

In addition to preventing substitution of prisoners, Mr. French said, the photographs also could serve in identifying some of the men who, arrested for the second or third times, use fictitious names in order to avoid more serious jail sentence, or possible imprisonment at Leavenworth.

"This work should be in charge of prohibition forces," Mr. French said, "and such an arrangement would have been made some time ago when the reports of the operations of the bootleggers first reached us, but for the fact that there were no funds available. However, some such an arrangement is necessary to prevent the liquor law violators from escaping serving their time in jail."

Mr. French said the matter of substitution by the bootleggers in jails has been placed before S. B. Quale, state prohibition director, along with information concerning alleged laxness of certain jailers.

In Devonshire, England, a sprig of loosestrife is often fastened around the neck of a quarrelsome bullock to stop him from fighting.

ROBBER SHOOTS
FARGO MANLarry Lauther Wounded in
Home of a Friend

Fargo, July 18.—Larry Lauther is in St. Luke's hospital with a bullet in his left shoulder as a result of an encounter with an unknown man caught in the act of robbing the E. F. Moore home, 1225 Eight St. S., at an early hour this morning. The burglar escaped but Lauther believes he was also wounded in the exchange of shots.

Lauther, who is employed at the Merchants National bank, had been requested by Mr. Moore to stay at the house last night while the Moore family was at the lake.

As he entered the house at midnight he noticed that the back door was unlocked and immediately was on the alert. Passing through the kitchen he had stepped into the front hall when he saw a man coming towards him in the dark. He immediately fired, according to his story, and the burglar returned the fire, hitting him in the shoulder as he passed him attempting to escape by the way Lauther had entered. Lauther fired again as the burglar fled.

Great men live ordinarily longer than ordinary individuals, according to statistics.

A Belfast woman has sailed around the world 19 times and has covered more than a million miles.

WINCHESTER PRIZE AWARD IS MADE HERE

Friz Schulz of Burnt Creek Is Awarded Annual \$25 School Prize

Friz Schulz, son of Mr. and Mrs. Carl Schulz, living in Burnt Creek, who has attended the Richholt school here for the past two years, has been awarded the Walter H. Winchester prize of \$25 given annually to the pupil graduating from eighth grade in Richholt county school, and in addition, it was announced today by Mrs. Nellie Lamb, deputy county superintendent of schools, following the final hearing up of the test papers. The examination given to determine the winner was held last Tuesday seven pupils taking it. Although the country districts are all over a representation of six, only our were able to come for the competition. Bismarck had three, Friz Schulz, Raymond Barth, Richholt school, and Anthony Faber, William Moore school. Those from the country were: Margery McDunn, Manning school district; Florence Neugebauer, Hay Creek school district; Bertha Piepkorn, Wagon James Swannick, McKenzie. The award is based on three things, reasoning, accuracy and care in details, and neatness. It is given to the pupil in memory of the late Walter H. Winchester. Friz Schulz came to North Dakota from Germany about three years ago, with his parents. His progress in school is said to be very unusual.

CRAIG PLANS UPON APPEAL

Remains in Jail Pending Failure to Provide Bond

Fargo, July 18.—Transcript of testimony and proceedings at the trial in LaMoure county district court in which Ray Craig, former president of the closed Ransom County Farmers Bank of Lisbon, was convicted of fourth degree forgery and given two years in the state penitentiary, is being awaited by the defendant's counsel before perfecting a move for a new trial, according to Judge W. H. Burnett of Fargo, one of Craig's attorneys. An appeal to the state supreme court is contemplated, depending upon the outcome of the move for a new trial. In the meantime Craig is being held in the LaMoure county jail under a \$5,000 appeal bond.

LA FOLLETTE MEN GATHER

Washington, July 18.—Confronted with the task of perfecting a national campaign organization and of selecting a vice-presidential candidate, more than a score of Senator LaFollette's chief supporters gathered here today for a series of conferences.

MRS. TINDELL GAINED 27 LBS. ON TANLAC

The Tanlac treatment is certainly grand. A year ago it gave me such a wonderful appetite and such good digestion that my weight increased from 123 to 150 pounds, and I have enjoyed the best of health ever since. It is the glowing tribute paid the famous medicine recently, by Mrs. Hazel Tindell, 1132 Jackson St., Dubuque, Iowa. When spring time came on last year I found my system all upset. My stomach and nerves were out of order, the color of health had left my cheeks and I did not have energy and strength to do my house work. But Tanlac soon corrected my troubles, brought the color of health back to my cheeks and left me feeling strong and well, just as I am now. I could not do other than praise Tanlac. Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

Tanlac Vegetable Pills for constipation made and recommended by the manufacturers of TANLAC. —Adv.

She Builds Garages

Mrs. Pearl G. Atkinson of Sacramento, Calif., is a portable garage builder with offices at Sacramento, Oakland, San Francisco and San Jose. It all came about when she was left eight houses in payment of a debt. She had trouble renting the houses because there were no garages. She bought lumber, hired two men, and sailed in and helped them build garages. They were portable affairs and made such a hit that she started garage building as a business. It was a success from the start.

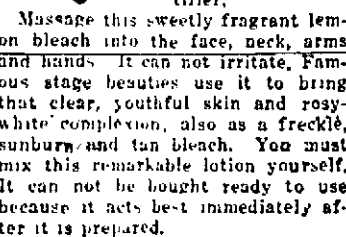

MONTANA MAN IS HANGED

Bozeman, Mont., July 18.—Seth Orrin Dunner was hanged in the county jail here at 2:19 o'clock this morning for the murder of Mrs. John Spruce at Central Park, Montana, in November, 1920. Dunner was pronounced dead four minutes after the trap was sprung. He seemed indifferent to the end.

Cook by Electricity. It is Clean.

Juice Of Lemon Whitens The Skin

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quart-pint of the most wonderful skin whitener, softener and beautifier.

—Adv.

VALLEY CITY LOSS \$20,000

Courthouse Fire Damage Not Over That, Says Hopton

The Valley City courthouse fire was not as serious as first reported, according to Harold Hopton, manager of the state fire and tornado insurance fund, whose adjusters have gone over the situation. Mr. Hopton said he did not believe the loss would exceed \$20,000. All that really burned, he said, was the roof, and damage was done by timbers dropping into the second floor. All of the vaults were intact and all records saved, he said, as well as most of the furniture. Adjusters for the state and for the insurance companies which carried insurance offered to settle for \$8,000 on the building and \$4,000 on contents, according to Valley City reports. Mr. Hopton said all

checking was not completed, but that \$20,000 probably was a high estimate of the loss.

28 ALIENS SENTENCED

Hailed Before Judge Miller in Court at Fargo

Fargo, July 18.—Twenty-eight aliens, arrested and pleading guilty to a charge of entering the United States without a passport recently were today sentenced to three months each in the Cass county jail by Federal Judge Andrew Miller. The aliens came to this country from points in Europe ranging from points in Italy to the Scandinavian countries of the north. At the same time Judge Miller sentenced Bernhard Penner, charged with smuggling aliens, to 10 months in the federal penitentiary at Leavenworth, Kansas. Penner's son, 17, received only 10 days in the county jail at Grafton.

After their release from the county jail the aliens will be taken in charge by federal immigration officials with deportation possible.

MRS. C. W. ELLIOT DIES IN MAINE

Cambridge, Mass., July 18.—Word was received here today of the death of Mrs. Charles W. Elliott, wife of the president emeritus of Harvard University, at Asticou, Mount Desert, Maine.

After their release from the county jail the aliens will be taken in charge by federal immigration officials with deportation possible.

MRS. C. W. ELLIOT DIES IN MAINE

Special Program Features Meet Of Methodist Aid

An unusually interesting program featured the special meeting of the Methodist Ladies Aid held yesterday afternoon in the church parlors, with the members of the Aid and their guests being present. Two solos, "There's Ever a Song in the Air, My Dear," by Ward Stephens, and "Three Green Bonnets," by Guy D'Harlot, were sung by Mrs. John Larson, who was in excellent voice.

Miss Ellen Coghlan gave a skillful interpretation of a selection from "Rebecca of Sunnybrook Farm". Dressed in costume, Mrs. John Booth Cooley of Grand Forks, well known for her success in dramatic work, gave two readings dealing with Indian legends. The first, a legend of the Devils Lake which was given to Mrs. Cooley by an Indian chief, and which has never been in print, was a somber thing, throbbing with repressed emotion and delivered in the low, rich, almost monotone voice typical of the Indian.

"Ojibwa," a Mohawk legend, written by Tekahionawake, the daughter of the last chief of the Mohawks, gave Mrs. Cooley opportunity for the pantomime in which she is so adept. The gestures and facial expressions told the story almost without the aid of the hauntingly beautiful tale of an Indian maiden's love and faith.

Mrs. J. B. Moore, also of Grand Forks, but who formerly lived here, when Rev. Moore was district superintendent at Bismarck, gave a talk.

A short business session preceded the program, and following the serving of refreshments, a social hour was enjoyed. The general officers of the Aid were hostesses at the meeting.

CELEBRATES BIRTHDAY
Little Miss Irene Anderson, daughter of Mr. and Mrs. E. C. Anderson, celebrated her eighth birthday by entertaining nine little girl friends yesterday afternoon. The time was spent in playing games, and later a buffet luncheon was served, a pretty feature being the big white birthday cake, with eight pink lighted candles. Miss Irene received a number of gifts in honor of the occasion.

CALLED BY NEPHEWS DEATH
Mrs. W. E. Cleveland and daughter left recently for Breckinridge, Minn., where they were called by the death of Mrs. Cleveland's nephew, a naval man who was drowned near the West Indies. Before returning Mrs. Cleveland will spend some time with her sisters, Mrs. Otto Fritz and Mrs. Fred Lewis of Bismarck, N. D.

TO PARK
Miss Elsie Brandt of the A. W. Lucas company leaves tomorrow for her vacation which she will spend at Yellowstone National Park. Before her return here she will spend some time at Carrington, N. D., with her parents, Mr. and Mrs. J. W. Brandt.

LEAVES FOR NEW YORK
George B. Harris of Harris-Robertson's Women's Wear Shop, leaves this evening for a three or four weeks trip to the New York Market, selecting fall styles.

TO WISHEK
Mrs. Charles Goldsmith of Wishek left yesterday after spending a few days here as the guest of friends.

MOVIE STARS

Are using these rare powders

By Edna Wallace Hopper
I did not intend to supply powders to women. My only idea was to furnish them my greatest beauty helps. But thousands of women have urged me, by letter and in person, to tell them the powders I use.

Like all my friends on the stage and in the movies, I use very costly powders. I have them made to my order, and they cost me \$5 per box. Our careers depend on our looks, and nothing is too costly.

But I have persuaded the makers to offer these powders at ordinary prices. I order them in quantities under my name. I offer them at my expense to girls and women who desire the best.

Now all druggists and toilet counters supply Edna Wallace Hopper's Powders. There are two kinds. For myself I prefer a clinging powder, a cold cream powder, based on my Youth Cream. It is enduring. That Youth Cream Powder costs \$1. But many women prefer a light and fluffy powder. If you want that kind, it costs but 50 cents. Both kinds come in three shades—white, flesh and brunette.

So far as I know these powders are the finest in existence. You may be sure that if anyone produced a better powder I would get it quickly. Anyone who uses common powders will gain a new conception of what powders should be.

DANCE

At Menoken, N. D.

Friday Nite,
July 18, 1924.

LADIES ORCHESTRA.

Bank of N. D. Employees Picnic

About sixty attended the picnic given by the employees of the Bank of North Dakota last evening west of town, near the pavilion. A game of baseball between the men and the women, resulted in favor of the women, who won by a 4 to 1 score.

Dancing was enjoyed during the evening in the pavilion, about 25 couples taking part. The picnicers brought their lunches, and wieners and marshmallows were roasted at a big bonfire. Miss Marion Melby and Miss Rene Mosbrucker had charge of the arrangements for the affair.

RETURN FROM EXTENDED TRIP
Mr. and Mrs. Lucius Heaton whose marriage was an event of June 29, returned from a two weeks trip yesterday. They went by motor, and camped all the way. They spent some time visiting relatives at Sheridan, Wyoming, and also visited the Devils Tower near there. From Sheridan they went to the Big Horn mountains, up which they had to climb on horseback, taking their camp horse, and camping at the summit. A visit was made to the national park in the Black Hills, where they saw Sylvan Lake.

Mrs. Heaton will spend a few days here with her parents, Mr. and Mrs. C. E. McKee, after which she will go to her husband's farm near McKenzie where they will make their home.

TO WEST BADEN CONVENTION
Mrs. L. B. Sowles left this morning for Fargo, where she will join the North Dakota delegates representing the Business and Professional Women's club, at the national convention at West Baden, Ind. The whole group will be entertained in St. Paul, from where the contingent from a number of states will take the special car over the Burlington straight through to West Baden. The convention opens on Monday and continues through the week.

LEAVE FOR GRAND FORKS
Mrs. J. G. Moore, and daughter, Miss Marjorie, Mrs. John Booth Cooley, all of Grand Forks, and Miss Elizabeth DeFrate of Bozeman, Mont., left this morning after having spent several days as the guests of their sister and aunt, Mrs. C. W. Moses. Miss DeFrate will go to Grand Forks for a short visit before going on to her home.

VISITS HERE EN ROUTE HOME
Miss Maude Miller arrived here yesterday to be the guest of Miss Clara Blumer for a few days. Miss Miller who has been teaching in the Park Ridge School for Girls at Park Ridge, Ill., during the past year, is a former Bismarck girl, and is now on her way to her home in Montana.

VISIT RELATIVES
Mrs. M. I. Moffet and Miss Marjorie Bailey left today for Barney where they will spend two or three weeks visiting relatives.

TO BARNEY
Mr. and Mrs. B. G. Spohn left this morning for Barney, and will visit with relatives for some time.

ENTERTAINS FOR HOUSE GUEST
Miss Ruth Jones of Lake Crystal, Minn., who is the house guest of Mrs. A. M. Christianson, was the

SONG

My dear mistress has a heart
Soft as those kind looks she gave me
When with love's restless art
And her eyes, she did ensnare me.
But her constancy's so weak,
She's so wild and apt to wander
That my jealous heart would break
Should we live one day asunder.

Melting joys about her move,
Killing pleasures, wounding blisses:
She can dress her eyes in love,
And her lips can warm with kisses.
Angels listen when she speaks,
She's my delight, all mankind's wonder:
But my jealous heart would break,
Should we live one day asunder.

—John Wilmot (Earl of Rochester)

Clearance Sale of Millinery

Saturday, the remaining hats of a large assortment of styles and colors, in dress, semi-dress, tailored and sport hats will be offered at the following remarkably low prices:

BRILLIANT COLORS

If you like to embroider here is an idea. This three-piece suit of white basket weave cloth is embroidered in the most brilliant shades of red and green. The skirt of the smock dress is made of crepe de chine the same as the lining of white crepe de chine, embroidered in the same patterns as the coat. The smart little hat is embroidered in white yarn.

honor guest at a one o'clock luncheon given by Mrs. Christianson, Wednesday afternoon. Following the luncheon, bridge was played. Miss Jones will be here until the last of this month.

VISIT IN FARGO
Mr. and Mrs. J. B. Belk and daughter Miss Emily are guests of Mr. and Mrs. W. H. Elliott, of Fargo. They are en route to Detroit, Minn., where they will enjoy an outing and are traveling by automobile. They are also attending the North Dakota State Fair.

GUESTS FROM ST. PAUL
Misses Nook and Anne Reckinger, who motored up here on Monday from their home in St. Paul, with the Misses Doorley, at whose home they are guests, will spend the next month in the city. Before coming to Bismarck the party spent several days at the Minnesota lakes.

VISIT AT I. G. MONSON HOME
Mr. and Mrs. T. B. Bordrud, daughter, Mrs. O. Osgaard, and Mrs. Osgaard's son Myron, arrived here Wednesday night, and will be guests for several days at the I. G. Monson

home, before going to Ryder, where they will visit relatives.

RETURNS FROM FISHING TRIP
P. W. Robertson returned to the city this week after a two weeks fishing trip at Big Pine Lake near Perham, Minn. His father accompanied him on the return trip to Bismarck.

TO LAKE SALLY
Mr. and Mrs. Philip Meyer and baby are leaving today for Minnesota, traveling by car. They expect to spend a month at Lake Sally, where they have a cottage.

FORMER CAPITOL EMPLOYEE HERE
Miss Nora Hilde of Fargo is the guest of Miss Rose Sell. Miss Hilde was employed at the Capitol for some time before leaving for Fargo.

ATTENDS PLAY
J. H. Garrity of Glen Ullin was a visitor in the city Wednesday, attending the performance of "Lightnin'".

VISITS MOTHER
J. B. Smith is spending a week at the home of his mother, at Adams, Minnesota.

FROM BLACK HILLS TRIP
Miss Catherine Morris returned Tuesday from a trip through the Black Hills.

FROM FARGO
Dr. R. L. Bork of Fargo is in Bismarck for a few days on business.

IN CITY TODAY
John A. Waiste is in the city today from his home in Lyman township.

VISITS BROTHER
Mrs. M. Todd is the guest of her brother, L. A. Baker for several days.

Bismarck Hospital
Patients admitted to the Bismarck hospital from out-of-town for treatment: Joe Drashil, Almont; Miss Pauline Steine, Carson; Arnold Peterson, Braddock; Colby Erickson, Mott; Clarence Starr, Mandan; Ida George, Lehr.

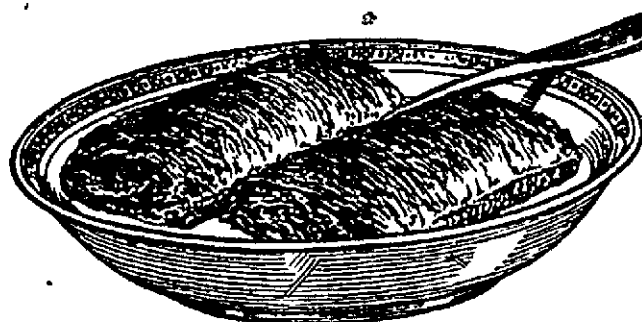

A Little Bran Is Good for You

If it is thoroughly mixed with a well-cooked cereal. Not one person in a hundred should eat raw bran. It is almost pure cellulose and is not digestible. All the bran you need to promote natural and healthful bowel movement is in Shredded Wheat. It is combined with the tissue-building, bone-making elements of the whole wheat grain, making it a perfect food for children and grown-ups. Two biscuits with milk make a nourishing meal.

Prevents Decay of Teeth

I often have occasion to recommend to my patients your Shredded Wheat. They furnish the roughage needed to relieve constipation. I find they are an alkaline food, and one or two eaten just before going to bed will neutralize the fluids of the mouth and help prevent decay of the teeth.

W. J. Bickford, D.D.S.,

Cardinal Passes Through

Cardinal Denis Dougherty, Monsignor Sinnott, Monsignor McCullough and Rev. L. P. MacGinley, all of Philadelphia, passed through Bismarck last night on their way west to California, where they will meet Bishop John B. MacGinley of the Philippines at Seattle and accompany him to Fresno, California, where on July 31 he will become Bishop of Monterey and Fresno.

AT THE MOVIES

THE ELTINGE
Betty Campbell in "Miami" will be seen at the Eltinge theatre today and Saturday. Coconut groves, beautiful pavilions, bungalows, sumptuous as any mansion, yachts, motor cars fitted with every comfort, these are some of the things which lend color to "Miami".

REAL WESTERNERS IN EMERSON HUGH FILM
In filming "The Way of a Man" as an Emerson Hough's novel, Pathe picture, for the several difficult masculine roles of the story it became necessary for George B. Seitz, director, to employ genuine westerners because of the fast riding, dangerous fights and necessary "bump of location".

One of these roles was assigned to Chet Ryan, an ex-cowboy from

Wyoming. He plays Mandy McGovern's cowardly son, Andy. Whitehorse was an ideal and natural selection for the role of Aubrey, the scout. Whitehorse having been raised by Indians who stole him from his white parents. But Osborne is another ex-cowboy and an actor of many years' experience. He interprets the difficult and mysterious role of Gordon Orme, one of the great villain roles of screen or fiction. Harold Miller, gentleman of California, was cast as the hero, John Cowles, gentleman of Virginia. "The Way of a Man" will be shown at the Capitol Theatre today, Friday and Saturday.

BUTTON DESIGNS

The French designers continue to do the most interesting things with buttons, combining them with embroidery and making motifs of them, as well as running them up and down in rows.

LINES CURVED
The slightly circular line about the hemline is much more popular than the square, straight one, though the wrap skirt is probably most popular of all.

STRIPED SHIRTINGS
Striped shirting makes very snappy as well as serviceable sport costumes. Those with bosoms of tuck that run cross-wise and low leather belts are universally becoming.

ONE-SIDED EFFECT
The one-sided effect is returning to favor, that is, with one shoulder exposed and the other shrouded in cloth, and a different sleeve treatment.

Ralph Barnard, a British aviator, has flown a distance equal to 12 times around the world.

GRAY PEARLS
The gray pearls that are so popular now are very becoming to most women and are particularly lovely with black or white.

EMBROIDERED
A matching hat and scarf of black satin are embroidered in colored flowers in shades of red.

Prose writers ordinarily live longer than poets, statistics show.

HAINES IN NO-HIT GAME

Cardinal Pitcher Enters Baseball Hall of Fame

Chicago, July 18.—The baseball world today crowned a new member of the no-hit, no-run club. Jess Haines of the St. Louis Cardinals let Boston down without a hit or a run yesterday before 15,000 fans in St. Louis, and the Cardinals won, 5 to 0. Haines fanned five men and walked three. Two Boston men died on first while another expired on second, reaching there on two passes issued in the sixth inning. Haines received fine support.

A home run in the 13th inning by Traynor gave Pittsburgh a 4 to 3 victory over the New York Giants. Cincinnati won a heavy hitting contest from Brooklyn, 10 to 8, while Chicago nosed out Philadelphia in a 3 to 2 victory.

In the Americans, the Washington club, fighting for first place, played even with St. Louis. St. Louis took the first game, 3 to 0, with good pitching by Dixie Davis while Washington won the second, 12 to 7.

The Chicago White Sox slugged their way to a 13 to 5 victory over Philadelphia. Hollis Thurston, White Sox pitcher was credited with his ninth consecutive victory.

Billy Evans Says

Nick Altrock is considered baseball's greatest comedian—the premier clown of the diamond.

Nick, 15 years ago, was one of the game's greatest pitchers, an outstanding southpaw in a classy field. When Nick was a pitcher he used brain as well as brawn. Other southpaws with far more natural ability failed to compare with him, because he did more than merely pitch. Altrock put some thought back on every ball he delivered.

There is a finish to the career of every player, no matter how great a star he may be. Altrock was no exception to the rule.

As a pitcher Nick Altrock was one of the most serious individuals that ever stepped on the ball field. Baseball was a business with him, a mighty serious one.

In Nick's day as a player the stars didn't get anything like the money they do today. Always a good spender, Altrock, as he passed as a player, probably found that his bank roll wouldn't last forever.

In an effort to capitalize on his reputation as a player, Altrock turned from the serious to the humorous.

Realizing all work and no play sooner or later became monotonous, Altrock gave a new touch to the game by pantomime comedy. Every fan is so familiar with Nick's stuff that comment is unnecessary.

Altrock still has his serious moments, however, despite the fact that he is the champion laugh-maker. When not clowning, Nick sits back on the bench and carefully studies the play of his teammates and opponents. The comedy ends with him when the game starts.

"Is the game faster than it was 15 years ago? I asked Nick in one of his serious moments.

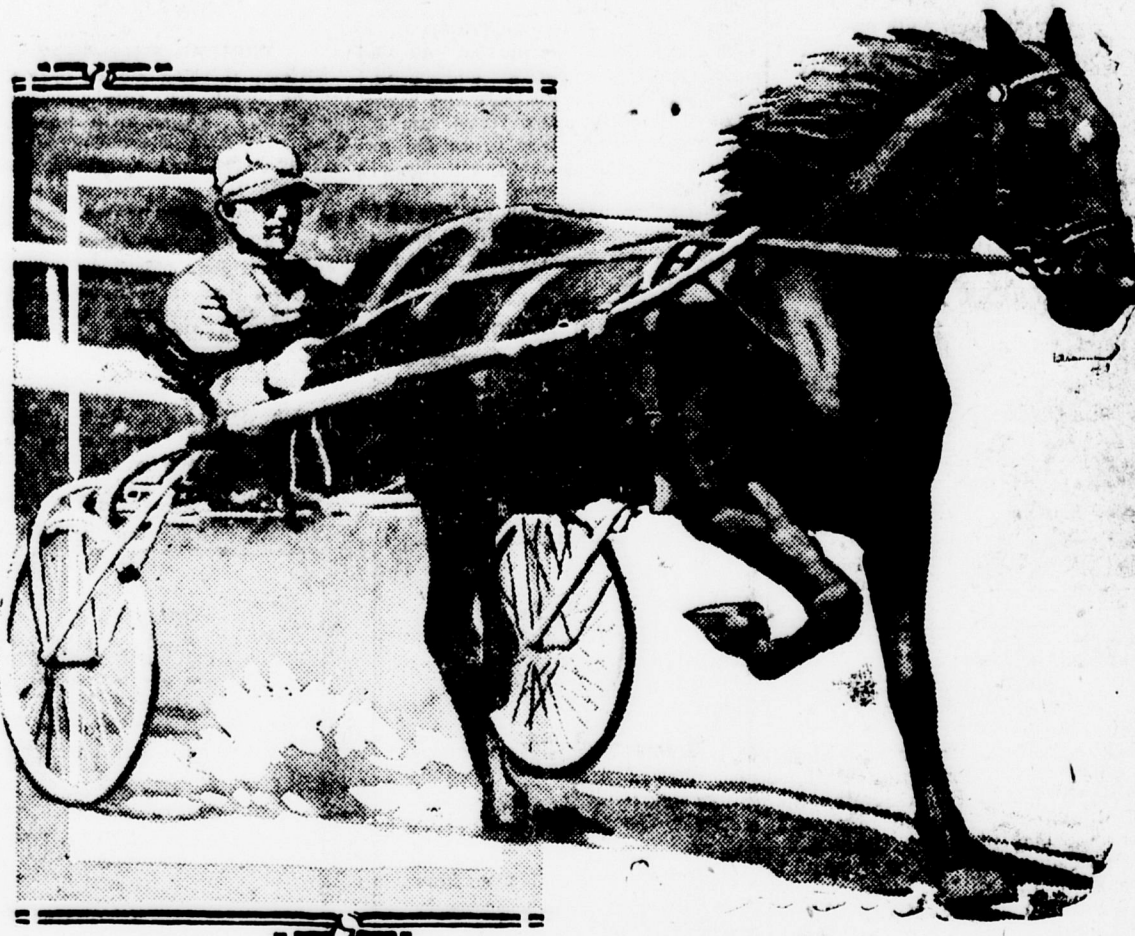

"I would be a star pitcher today," was his reply. Mr. Fan, you can read between the lines for yourself on that one.

"Come any of the old fellows hit them like Ruth?" was question number two.

"If Sam Crawford, Larry Lajoie, Hans Wagner, 'Buck' Freeman and some of the old-time sluggers could have had a whirl at the lively ball, the team would still be talking about their records," answered Nick.

"In what department, if any, has

19-Year-Old Trotter Sets Record

MAY MACK FINISHING HER RECORD MILE

The world's mile record of 2:14 1/2 for 19-year-olds, held by Goldsmith Maid since 1876, was shattered recently by May Mack. The ancient May cast aside entirely her grave, matronly dignity and whizzed around the course in the scandalous time of 2:12 1/2. "The old girl sure was feeling her oats," commented the surprised timers at the end of the race.

Dixie's All-Star Picks Make Good in Majors

The "all star" picks seldom mean more than empty honors.

Baseball stars on All-Southern picks within the past few years, however, have proven an exception and collectively would make a fairly strong major league team.

Approximately 24 players, a standard big league club, are rated as regulars or near-regulars in the majors today after serving in southern college.

Joe Sewell and Riggs Stephenson, with Cleveland, are probably the most notable of the infielders. Both are from the University of Alabama. Chick Galloway of the Athletics is a South Carolina University alumnus. Joe Evans of the Browns and Frank Ellerbe of Cleveland are graduates of Mississippi A. & M. and Sewanee respectively. Del Pratt of the Tigers graduated from the University of Tennessee. The majors have several southern college outfielders. Gink Hendrick of the Yankees was All-Southern from Vanderbilt in 1920. Red Wingo of the Tigers was at Oglethorpe in 1919. Bib Falk of the White Sox

was a Texas college star. Ike Boone of the Red Sox was a star at Alabama in 1919.

In catching, Alabama furnished Luke Sewell and Tennessee had Hank Deberry's services for four years.

Pitchers are not so numerous, though Lefty Wingoard of the Browns never played professional ball except in the majors after leaving Alabama. Jim Joe Edwards of the Indians was an ace for Mississippi A. & M.

The 1920 All-Southern outfield was composed of Gink Hendrick, Roy Carlyle and Claude Satterfield. Hendrick is rated as a \$100,000 prize with the Yankees. Carlyle is the Southern League's batting leader and the property of Washington. Satterfield is in the International League.

Other Dixie collegians are under contract to report to the majors at the close of their school careers. There's no other section that can boast so many college stars in big-time baseball.

rglw s flb. A. eal

the game gone back?" I asked.

"Pitching of today doesn't compare with that of 20 years ago," replied Altrock. "Baseball certainly has slipped in pitching."

Veteran stars are agreed that major league pitching has slumped badly in the last 10 years.

"They point to the fact that in those days every club had at least four great pitchers, while now they are lucky to have two."

Incidentally the veterans point out to you that 90 per cent of the leading pitchers in the game today are experienced pitchers, men who have been performing in the majors for 10 years or more.

All of which makes Altrock's argument look logical.

Straw Hat Feature of Schoolboys at Harrow

A visit to the famous "Hill" of Harrow, on which stands a steeple which can be seen for miles, and a school which is famous all over the world, makes the total stranger uneasy with astonishment. In all weathers the Hill is "alive" with straw hats at certain hours. These hats are the famous Harrovian straw, with a shape and texture which belong to the Harrovian and "do no other life."

The straw hat is as completely "the thing" at Harrow as the top is at Eton and Westminster. It fits only where it touches and requires an elastic to keep it from careering down the High street on a windy day. This elastic is invariably worn under the bump at the back of the head and never under the chin, says London Answers.

In wet weather the hat gets very sloppy and acts as a sort of water-shed, giving the Harrovian the appearance of being surrounded by a miniature cataract. However, the straw-hat trade would suffer if this headgear were abolished, as there are 900 or 700 boys in the great school, and a straw hat does not last very long—especially on the head of a schoolboy.

Banks Long Known
Few things play a more important part in our lives today than the system of banking.

The work of a bank originally meant a tradesman's stall, and the first bank in anything like the modern sense existed about 2,700 years ago, says London Tit-Bits. We learn about this bank from clay tablets discovered near Babylon. Apparently the first firm of bankers was that of Eglbi & Son, who flourished in Babylon about 600 or 700 B. C.

The early Chinese were in the habit of issuing paper money—indeed, they got into difficulties by issuing too much. There was a bank in China about A. D. 1000.

Famous Old City
Venice ranks high among Italian cities in its supply of picturesque nicknames. The commercial center of the world in the Middle Ages, Venice has been known as "The Bride of the Adriatic" and the "Queen of the Adriatic."

To this day tribute is paid by Venice with elaborate ceremonies to the Adriatic, whose placid waters take the place of streets and bear upon their bosom the trade and life of the city. Venice is known also as "The City of St. Mark." After its patron saint, and as "The City of the Lion," an allusion to the great winged lion in front of the cathedral, holding in its paws the gospel of St. Mark.

Had Guest Puzzled
An English nobleman bought one of the old historic coaching taverns. It was filled with relics and he announced his intention of operating it both as a museum and as an inn.

But the first customer in gave him a rude jar. This man had been served with an ancient slice of cheese between two crusty slices of bread. Whereupon he called for the proprietor and inquired: "Is this a sandwich or an antique?"

Michigan Upsets Experts' Dope In Athletic Events

By NEA Service
Ann Arbor, Mich., July 18.—Michigan didn't win the Western Conference track and field meet recently held on Stagg field, Chicago. It didn't expect to. But Coach Steve Farrell's athletes did succeed in springing a few sharp surprises.

One of the biggest upsets was the victory of DeHart Hubbard, colored star in the 100-yard dash. With the cream of the middle west sprinters in the event, the Michigander wasn't looked upon to finish better than fourth. But he up and did it nevertheless, leading such recognized celebrities as Evans and Ayres of Illinois and McAndrews, Wisconsin.

Then came the shocking defeat of Dean Brownell, ace pole vaulter of Illinois. Here the Sucker star was conceded a certain first place. But Jim Brooke of Michigan upped the dope by whipping Brownell in the Urbana lad's favorite event.

Perhaps the most astonishing upset from a Michigan viewpoint was the victory of Dick Doyle, Maize and Blue sophomore weight man, in the shot-put. Doyle hadn't been figured to show. But his heave of 43 feet 4 3/4 inches was good enough to win.

The Toddler To Stage Comeback In Harness Race

By NEA Service
Cleveland, July 18.—Harness horse fans throughout the country are watching with unusual interest the progress of The Toddler, 2:03 1-4, in the stable of Harry Stinson, noted Canuck trainer, who has been located at North Randall for many years.

A few seasons ago, The Toddler, a son of Kentucky Todd, was one of the sensations of the Grand Circuit.

In 1920 at Columbus he sprang a great surprise when he trotted the third heat of the \$3000 Neil House Stake in the fast time of 2:03 1-4, beating such good ones as Wilkes brewer and Royal Mack in a six-heat race.

His last appearance was in 1921, when he was three times first in five starts and never back of third money.

Near the close of the 1921 season Stinson announced that The Toddler would be shipped to Lexington, start in the Castleton Cup race and win or lose be retired.

It seemed as though Stinson intended to keep his word, but evidently he figured that the horse had a lot of good races left in him, so he put him into training again this spring.

DELIVERY NO LONGER PUZZLES
Now that National League batters have become accustomed to the peculiar underhand motion used by Carl Mays' former Yankee star, it is not meeting with nearly so much success as early in the season.

THROWS ONLY STRIKES
National League umpires say that if Pitcher Tony Kaufmann had a better disposition he would be twice as good a pitcher. According to the umpires, Kaufmann labors under the delusion that he throws nothing but strikes.

The favorite pet of the poet Burns was a sheep, while Rossetti leaned toward woodchucks, wombats, armadillos, kangaroos and chameleons.

Americans Give London Real Social Season

By Milton Bronner
NEA Service Writer
London, July 18.—London has, this spring and summer, been enjoying the greatest social, athletic and business season it has known since 1913. And one of the accompaniments of this has been the greatest season for American social snobs the city has ever had.

All the broken-down aristocrats in search of hard cash have been able to rent both town and country places to rich Americans, anxious to climb their way into British society. And the American embassy has been besieged by ambitious people from "republican" America anxious to have their daughters or wives "presented" at one of the courts held by the king and persistence and pull, many of these daughters of the republic got the coveted "commands" to present themselves at court. Busy times follow. They spend a small fortune having glad-rags built by some court dressmaker. They hire some impeccable British gentleman to teach them the proper way to bow and scrape.

And on the great day they sit in an auto in a long line of machines, each with a number, waiting their turn to drive into the royal palace yard in the morning. The London cockneys stare at them just as if they were monkeys in a cage and make audible remarks about them.

When they finally get into the palace, they make their stiff approach to the royal pair, curtsy, get a fishlike handshake and the big thing is over.

It opens no doors for them in London and doesn't help them any in America. But their vanity has been satisfied. They have gotten something that millions of better Americans couldn't get and probably wouldn't care for.

Negro Spirituals Helped A. E. F. Go Over the Top

"Laying rails to music," says Lieutenant Elmer P. Ressegui, who was a bandmaster of the 105th Field Artillery, A. E. F., "saved the American army a good many dollars and much time during the war."

"Led by a band and several 'sing-in' men," with great rich voices, the rail layers chanted the stirring spirituals of the American negro, gradually accelerating the rise and fall of their mallets and shovels and

hitting a little harder as the tempo increased.

Most popular of all the tubeful pep-builders was a nameless melody which put a smile on the faces of all the negro stevedores as well as energy into their hitting. This has been revised, fox-groated and named "Runnin' Wild."

"America owes the old song and its fellows a deep debt of gratitude," for its irresistible refrain hurried up munitions and supplies for many a lad who had to go over the top and incidentally introduced America's only folk songs to the north, west and east."

NOTICE TO COAL DEALERS
Bids are requested for supplying 1000 tons (more or less) best lump lignite coal, delivered in the bins of the several Bismarck public schools during year ending June 30, 1925. Bids to be opened at regular meeting of board Tuesday, Aug. 12, 1924 at 8 p. m. High School. Privilege reserved to reject any or all bids.

By order of Board of Education,
RICHARD PENWARDEN,
Clerk.
7-1-3-8-10-15-17-22-24-29-31-8-5-7

The frigate bird and the albatross can both sleep on the wing.

In France they appreciate the importance of daily grub. For instance, the newly elected president of France, Gaston Doumergue, the other day got a very interesting letter from the mayor of a little fishing village of that southern France from which the chief executive also hails. It said:

"Have you a good cook at the Elysee Palace? Everything depends upon that. A bad cook can cause a bad stomach; a bad stomach paralyzes the best intentions."

"If the man charged with the duty of watching over your appetite and, hence, your health, is not up to his job, write me a word and I will consider myself honored to come and preside over the Elysee kitchen stores. My only reservation would be that from Paris I would watch over the interests of the commune of which I am mayor."

Italy is one of the European lands where motorization is not popular. In most of the big cities you find more horse-drawn passenger vehicles than you do taxis.

And now Venice has just shown that an important part of its population is very much opposed to new-fangled ideas.

For centuries the best way, in fact, the only way of locomotion on Venice's street canals has been the gondola. Not long ago the city authorities decided to allow electric launches of light draught to play in the canals. But they were counting without their gondoling fellow-citizens.

The latter blocked the way with their boats, so that the launches could not get out even after they were hired. And, finally, about three hundred gondolas loaded down with Venetians were propelled down the Grand Canal to the town hall, where they regaled the city fathers with this song: "Down with motor boats!"

Britons have invented a new verb which they invariably spring on their Yankee acquaintances. Their greeting is: "Good morning. Have you Wembled since you landed here?" They are referring of course to the British Empire Exhibition at Wembley. Hence to have "Wembled" is to have visited the show.

MISSING
Fear that Harold Bradley, 38, Chicago real estate operator, missing since June 25, may have committed suicide has been expressed by relatives. He told members of his family when he left home that he was going to a sanitarium in Michigan for a rest. But authorities are inclined to believe inability to raise money to meet an obligation in an apartment house deal was responsible for his departure. An examination of his affairs is being made.

Every person uses an average of 12 pounds of soap annually.

NOTICE TO COAL DEALERS
Bids are requested for supplying 1000 tons (more or less) best lump lignite coal, delivered in the bins of the several Bismarck public schools during year ending June 30, 1925. Bids to be opened at regular meeting of board Tuesday, Aug. 12, 1924 at 8 p. m. High School. Privilege reserved to reject any or all bids.

By order of Board of Education,
RICHARD PENWARDEN,
Clerk.
7-1-3-8-10-15-17-22-24-29-31-8-5-7

The frigate bird and the albatross can both sleep on the wing.

In France they appreciate the importance of daily grub. For instance, the newly elected president of France, Gaston Doumergue, the other day got a very interesting letter from the mayor of a little fishing village of that southern France from which the chief executive also hails. It said:

"Have you a good cook at the Elysee Palace? Everything depends upon that. A bad cook can cause a bad stomach; a bad stomach paralyzes the best intentions."

"If the man charged with the duty of watching over your appetite and, hence, your health, is not up to his job, write me a word and I will consider myself honored to come and preside over the Elysee kitchen stores. My only reservation would be that from Paris I would watch over the interests of the commune of which I am mayor."

Italy is one of the European lands where motorization is not popular. In most of the big cities you find more horse-drawn passenger vehicles than you do taxis.

And now Venice has just shown that an important part of its population is very much opposed to new-fangled ideas.

For centuries the best way, in fact, the only way of locomotion on Venice's street can

Variety of Particles Gathered by the Eye

Few people have never experienced the pain or discomfort that comes of getting dust particles or other foreign bodies in the eyes. Few, it is safe to say, realize the true source of some of these irritating obstructions.

Tell the average person it is possible to collect in the eye the dust of a falling star and you will probably be disbelieved. Yet microscopic examination has shown this to be a fact. When a meteor reaches our atmosphere it discharges heavy vapors, which condense into myriads of minute particles, and one of which may lodge in the eye that is gazing skyward. Volcanic eruption may cause discomfort in a similar fashion. Lava flowing from an active crater gives off clouds of vapor containing microscopic particles that make their way round the world in the upper air currents, ultimately to fall in showers upon the earth, where wide-open eyes may easily collect them.

Again, the great deserts contribute largely to the number of foreign bodies gathered in this way. Sandstorms do not cease from troubling immediately they subside. Their particles are borne the world over, many of them finding lodgment in our eyes, as the microscope has repeatedly proved.

Pollen from the big pine forests of Canada may affect us in like manner, not least potent cause of this special form of irritation is the scales of butterflies' wings, shed as a rule during the first flights after emerging from the pupa.

The sources and variety of things gathered in the eyes during a normal lifetime are, in fact, amazing and form an astounding commentary on the disintegrating forces unconsciously at work in the universe.

Explaining the Real

Function of the Mind

Mind was not created for the sake of discovering the absolute truth. The absolute truth has its own tangible reality and seems to be known. The function of mind is rather to increase the wealth of the universe in the spiritual dimension by adding appearance to substance and passion to necessity, and by creating all those private perspectives, and those emotions of wonder, adventure, curiosity, and laughter which omniscience could include. If omniscience were alone respectable, creation would have been a mistake. The single duty of all creatures would then be to repair their creative error by abolishing their several senses and desires and becoming indistinguishable from one another and from nothing at all; and if all creation could attain to this sort of salvation, the absolute substance, in whose honor all else had been abandoned, would become unconscious. The time will doubtless come for each of us, if not for the universe at large, to cease from creation; but in the meantime, let us enjoy our passage through life with the tale of things; and our distinction and glory, as well as our sorrow, will have lain in being something in particular, and in knowing what it is.—G. Santayana in Yale Review.

Comfort for the Bald

Bald people usually bemoan the loss of their hair and sigh for the locks which have gone forever, but there is at least one advantage which comes from baldness.

For example, have you ever met a bald man who was consumptive? It has been found that bald men are peculiarly immune to this disease. One doctor has said that out of 5,000 consumptive patients not a single one was bald. Baldness is sometimes caused by bad dieting; but more frequently by letting cold and damp penetrate to the roots of the hair. A man will emerge from a barber's shop with his hair wet even on the coldest day.

Excessive exercise is likely to bring on baldness. Athletes become overheated, and when they cool off, their scalp becomes chilled.

Freemasonry

There is no evidence that the order has been in existence for more than a few hundred years. As now organized the fraternity dates from 1771 when four lodges of London met and formed a grand lodge. A few lodges can be traced about 100 years before 1771. Previous to that there is no record of the order. Historians of the subject say that in a general way the Masonic lodges can be traced from the stone mason lodges, survivors of the guilds which built churches, cathedrals and bridges in the Middle Ages. Stories that the order had an uninterrupted existence since the days of the flood, since the time of Isis and Osiris in Egypt, or since the building of Solomon's temple are mere myths and are not considered as part of the real history of Freemasonry.

Getting Pointers

An elderly colored man had been noticed hanging around the seal tank in the zoological park of a southern city. The superintendent did not know what he was up to and was rather afraid that the man intended to commit suicide. Finally the superintendent asked him point-blank what it was all about. "I don't mean no harm whatever, boss," was the earnest reply. "But I needs some pointers and I needs them bad. You see, suth, I jest fished a lodre and I been elected grand keeper of the seal."

Faith, Hope, Charity

Faith—The young man who sends flowers to a girl who has broken a date on account of illness. Hope—The man who calls a girl for a date at 8:30 o'clock Saturday evening. Charity—The girl who suggests they go to the movies.—Northwestern Purple Parrot.

If all the eggs of a single codfish were hatched into fish, which should in turn hatch all of their eggs, in a very few years the whole earth would be buried under many feet of codfish.

SHE REALIZES AN AMBITION

Mrs. W. A. Chapman, 84, of Dallas, Texas, whose schooling ended in the fourth order, but whose ambitions for her children prompted her to aid in the founding of a university, has lived to see six children and 14 grandchildren enter the institution which she helped to create. Right after the Civil War her work led to the founding of Trinity University, which opened in 1869. The latest of her six children was president of his class in 1924. Mrs. Chapman has three other grandchildren in the university, who will graduate later.

MANDAN NEWS

RESOLUTIONS ADOPTED

Resolutions unanimously passed by the Mandan county Republican central committee following its organization late Wednesday afternoon endorsed President Coolidge and the Cleveland platform and pledged support to the state office and legislative nominees who had then and to the college campaign.

The resolutions adopted were as follows: Resolved That the county committee of Mandan county, North Dakota, does hereby endorse the administration of President Coolidge, and pledges itself to work to the utmost to give him a plurality in Mandan county, be it further

Resolved, that we approve and endorse the national platform as adopted by the Republican convention at Cleveland, be it further Resolved, that we pledge ourselves to endorse and support those candidates for state and legislative office who give them unequivocal support to President Coolidge and the National Republican platform.

As a further organized the county committee in committee composed of W. L. Rike, chairman; L. A. Taves, secretary; John Christensen, treasurer; W. F. Martin, member at large executive committee.

LEFT LAST NIGHT
Mr. and Mrs. W. R. Shepherd left last night for St. Paul where they will spend a couple of weeks with Mr. and Mrs. Harry Shepherd, parents of the former and Mr. and Mrs. Geo. B. Patterson, parents of Mrs. Shepherd. The latter will also visit with a sister Mrs. J. Herman.

FROM HALIFAX
John S. Goddard and family of Halifax were in the city yesterday between trains. They are enroute to St. James, Minn., to visit for three weeks at the home of Mr. Goddard's brother.

Snowy Egret.

"It is hard to believe, but it is true, and if only they knew, if only they really knew (for I can't believe they all do know) what suffering they cause by wearing such plumage, I don't think they could ever wear it again. For wearing it, Snowy Egrets and other mothers are killed and their little ones are left to starve. But, alas, we're safe! And there is Nancy's club, of which we have heard, and more clubs, too, in which there is a faithful promise made that none of these girls will ever wear a feather or a plume which causes suffering. The birds wanted Mother Egret to tell this story once, in which so it would become known. (© 1924, Western Newspaper Union.)

AMERICA IMPROVES
Berlin, July, 18—America has solved the "girl problem" and the "alison problem," in the belief of Alice Solomon, prominent social worker, who has been lecturing on her experiences in America. There is less drinking, she reports, and the younger generation has undergone a reaction against dance halls.

Moonlight bathing has proved so popular at several English beaches that "electric moons" are to be installed for use on cloudy nights.

DRIVE TO MINNESOTA

Mrs. Walter Keller, who has been a guest at the home of her mother, Mrs. A. P. Gray since the first of the month, has left in company with Mr. and Mrs. Paul R. Shannon, for her home in Hackensack, Minn. Mr. and Mrs. Shannon plan to spend several weeks at the lakes near Hackensack.

ONLY ONE BID

One bid, presented by the Woodrich Construction company which has the present contract for paving, was opened by the board of city commissioners at the regular meeting this week, for the paving of five

additional blocks and for placing curbing and grading other streets.

Winter is the commonest season for burglary.

People in the south of England believe that if a cow has been bitten by a snake and the milk allowed to stand, the form of the snake will be seen in the milk.

The word tobacco is derived from "tobacco" the tube or pipe through which tobacco was smoked by the natives of Central and South America.

Sports HAINES IN NO-HIT GAME

Cardinal Pitcher Enters Baseball Hall of Fame

Chicago, July 18.—The baseball world today crowned a new member of the no-hit, no-run club. Jesse Haines of the St. Louis Cardinals let Boston down without a hit or a run yesterday before 15,000 fans in St. Louis, and the Cardinals won, 5 to 0. Haines fanned five men and walked three. Two Boston men did on first while another expired on second, reaching there on two passes issued in the sixth inning. Haines received fine support.

A home run in the 13th inning by Traynor gave Pittsburgh a 4 to 3 victory over the New York Giants. Cincinnati won a heavy hitting contest from Brooklyn, 10 to 8, while Chicago nosed out Philadelphia in a 3 to 2 victory.

In the Americans, the Washington club, fighting for first place, played even with St. Louis. St. Louis took the first game, 3 to 0, with good pitching by Dixie Davis while Washington won the second, 12 to 7.

The Chicago White Sox slugged their way to a 13 to 5 victory over Philadelphia. Hollis Thurston, White Sox pitcher, was cited with his ninth consecutive victory.

Billy Evans Says

Nick Altrock is considered baseball's greatest comedian—the promoter clown of the diamond.

Nick, 15 years ago, was one of the game's greatest pitchers, an outstanding outfielder in a classy field. When Nick was a pitcher he was known as well as a player. Other south-pawed players with far more natural ability failed to compare with him, because he did more than merely pitch. Altrock put some thought back at every ball he delivered.

There is a finish to the career of every player, no matter how great a star he may be. Altrock was no exception to the rule.

As a pitcher Nick Altrock was one of the most curious individuals that ever stepped on the ball field. Baseball was a business with him, a mighty serious one.

In Nick's day as a player the stars didn't get anything like the money they do today. Always a good spender, Altrock, as he passed as a player, probably found that his bank roll wouldn't last forever.

In an effort to capitalize on his reputation as a player, Altrock turned from the serious to the humorous.

Revolving all work and no play, Altrock gave a new touch to the game by pantomime comedy. Every fan is so familiar with Nick's stunts that comment is unnecessary.

Altrock still has his serious moments, however, despite the fact that he is the champion laugh-maker. When not clowning, Nick sits back on the bench and carefully studies the play of his teammates and opponents. The comedy ends with him when the game starts.

"Is the game faster than it was 15 years ago? I asked Nick in one of his serious moments.

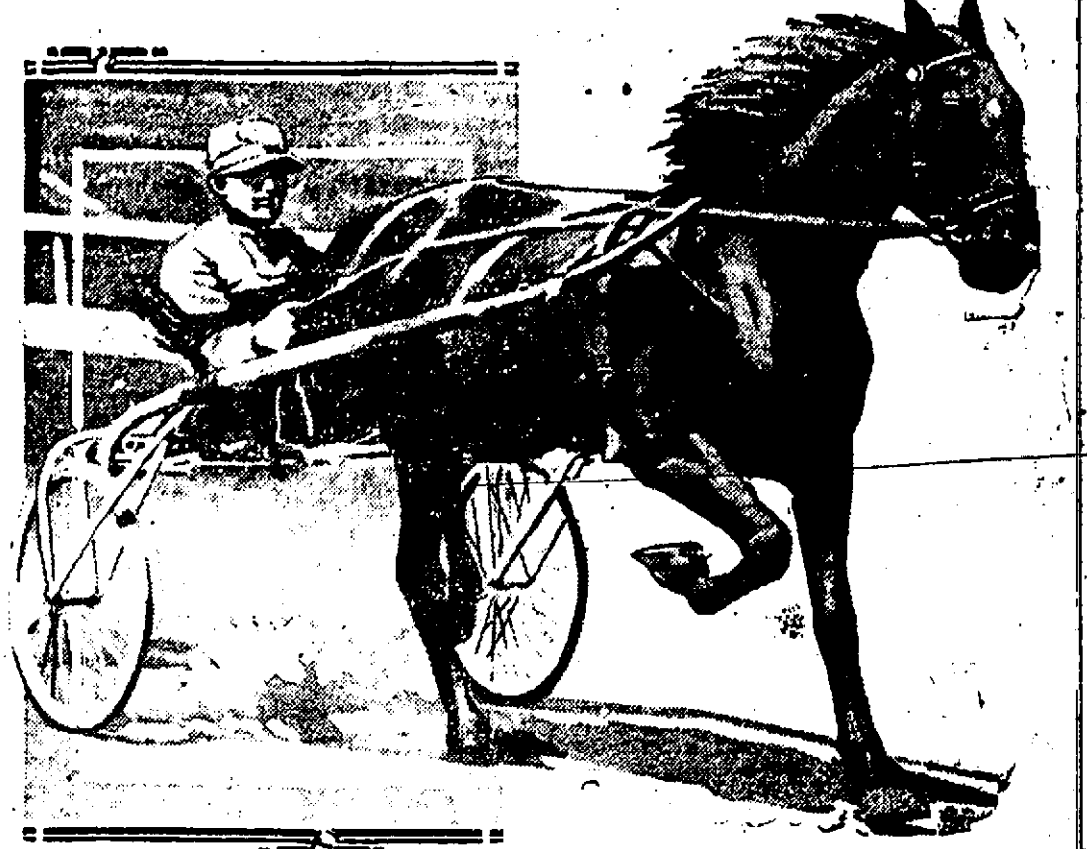

"I would be a star pitcher today," was his reply. Mr. Fan, you can read between the lines for yourself on that one.

"Could any of the old fellows hit them like Ruth?" was question number two.

"If Sam Crawford, Larry Lajoie, Hans Wagner, 'Buck' Freeman and some of the old-time sluggers could have had a whiff at the lively ball, the record still is talking about their records," answered Nick.

"Is what department, if any, has

19-Year-Old Trotter Sets Record

MAY MACK FINISHING HER RECORD MILE

The world's mile record of 2:14 1/2 for 19-year-olds, held by Goldsmith Maid since 1876, was shattered recently by May Mack. The ancient May ran aside entirely her grave, matronly dignity and whizzed around the course in the scintillating time of 2:12 3/4. "The old girl sure was feeling her oats," commented the surprised timers at the end of the race.

Dixie's All-Star Picks Make Good in Majors

The "all star" picks seldom mean more than empty honors. Baseball stars on All-Southern picks within the past few years, however, have proven an exception and collectively would make a fairly strong major league team.

Approximately 24 players, a standard big league club, are rated as regulars or near-regulars in the majors today after serving in southern colleges.

Joe Sewell and Riggs Stephenson, with Cleveland, are probably the most notable of the infielders. Both are from the University of Alabama. Chick Galloway of the Athletics is a South Carolina University alum.

Joe Eames of the Browns and Frank Ellerbe of Cleveland are grads of Mississippi A. & M. and Sewanee respectively. Del Pratt of the Tigers graduated from Alabama.

The majors have several southern college outfielders. Gink Hendrick, of the Yankees, was All-Southern from Vanderbilt in 1920. Red Wingo of the Tigers was at Oglethorpe in 1919. Bib Falk of the White Sox

uncle is only snuffler in corral who can frighten something higher than ace out of deck.

Your uncle leaped so far in winning broad jump that mothers in neighboring villages brought their children out to see strange two-legged dirgibles (punching all bases in the skies).

Your uncle made clean sweep in early shotput. Winning ball cleared French boundary and hit kaiser's long-beaked son in seat of hand-patched knickers, starting him off on another "orderly retreat" to previously prepared positions.

Europe can't savvy handsome difference between your uncle as statesman and athlete. As statesman, Europe can take him for everything, including a choice boob, but as athlete he performs like bright young fellow with all his marbles.

Michigan Upsets Experts' Dope In Athletic Events

By NEA Service

Ann Arbor, Mich., July 18.—Michigan didn't win the Western Conference track and field meet recently held on Stage field, Chicago. It didn't expect to. But Coach Steve Farrell's athletes did succeed in springing a few sharp surprises.

One of the biggest upsets was the victory of Dick Doyle, colored star, in the 100-yard dash. With the cream of the middle west sprinters in the event, the Michigan runner looked upon to finish better than fourth. But he up and did it nevertheless, leading such recognized celebrities as Evans and Ayres of Illinois and McAndrews, Wisconsin.

Then came the shocking defeat of Dean Brownell, ace pole vaulter of Illinois. Here the Sucker star was conceded a certain first place. But Jim Brooker of Michigan tipped the dope by whipping Brownell in the pole vault, his favorite event.

Perhaps the most astonishing upset from a Michigan viewpoint was the victory of Dick Doyle, Maize and Blue sophomore weight man, in the shot-put. Doyle hadn't been figured to show. But his heave of 43 feet 4 3/4 inches was good enough to win.

True, losing the 100-meter dash to Mr. Abraham, the Jewish boy, was unexpected. Mr. Abraham was expected, it seems, but not so soon.

In the 200-meter your uncle led a stylish Paddock and trumped him with an ornate Sholz. ... Your

20-YEAR-OLD MAIDEN TO BRAVE CHANNEL CURRENTS

LILLIAN HARRISON

Although only 20 years of age, Lillian Harrison is said to be the champion feminine endurance swimmer of the world. She is an English girl who has been living in South America.

She is the first to swim the River Plate in the Argentine. This she did in 24 hours and 19 minutes, covering a distance of 26 1/2 miles.

Miss Harrison is now in England training for a swim across the English channel, which she plans to attempt late in July.

MISS HARRISON FINISHING PRACTICE SWIM

Straw Hat Feature of Schoolboys at Harrow

A visit to the famous "Hill" of Harrow, on which stands a steeple which can be seen for miles, and a school which is famous all over the world, makes the total stranger jump with astonishment. In all weathers the Hill is "alive" with straw hats at certain hours. These hats are the famous Harrovian straw, with a shape and texture which belong to the Harrovian and to no other.

The straw hat is as completely "the thing" at Harrow as the top hat is at Eton and Westminster. It fits only where it touches and requires an elastic to keep it from careering down the High street on a windy day. This elastic is invariably worn under the bump at the back of the head and never under the chin, says London Answers.

In wet weather the hat gets very sloppy and acts as a sort of water-shed, giving the Harrovian the appearance of being surrounded by a miniature cataract. However, the straw-hat trade would suffer if this headgear were abolished, as there are 600 or 700 boys in the great school, and a straw tile does not last very long—especially on the head of a schoolboy.

Banks Long Known

Few things play a more important part in our lives today than the system of banking.

The word bank originally meant a tradesman's stall, and the first bank in anything like the modern sense existed about 2,700 years ago, says London Tit-Bits. We learn about this bank from clay tablets discovered near Babylon. Apparently the first firm of bankers was that of Ezihl & Son, who flourished in Babylon about 600 or 700 B. C.

The early Chinese were in the habit of issuing paper money—indeed, they got into difficulties by issuing too much. There was a bank in China about A. D. 1000.

Famous Old City

Venice ranks high among Italian cities in its supply of picturesque nicknames. The commercial center of the world in the Middle Ages, Venice has been known as "The Bride of the Adriatic" and the "Queen of the Adriatic." To this day tribute is paid by Venice with elaborate ceremonies to the Adriatic, whose placid waters take the place of streets and bear upon their bosom the trade and life of the city. Venice is known also as "The City of St. Mark." After its patron saint, and as "The City of the Lion," an allusion to the great winged lion in front of the cathedral, holding in its paws the gospel of St. Mark.

Had Guest Puzzled

An English nobleman bought one of the old historic coaching taverns. It was filled with relics and he announced his intention of opening it both as a museum and as an inn. But the first customer in gave him a rude jar. This man had been served with an ancient slice of cheese between two mincey slices of bread. Whereupon he called for the proprietor and inquired: "Is this a sandwich or an antique?"

Negro Spirituals Helped A. E. F. Go Over the Top

ELMER P. RESSEGUI

American Folk Songs Introduced During War

"Laying rails to music," says Lieutenant Elmer P. Ressegui, who was a bandmaster of the 105th Field Artillery, A. E. F., "saved the American army a good many dollars and much time during the war.

"Led by a band and several 'singin' men' with great rich voices, the rail layers chanted the stirring spirituals of the American negro, gradually accelerating the pace and fall of their mallets and shovels and

Americans Give London Real Social Season

By Milton Bronner
NEA Service Writer

London, July 18.—London has, this spring and summer, been enjoying the greatest social, athletic and business season it has known since 1913. And one of the accompaniments of this has been the greatest season for American social snobs the city has ever had.

All the broken-down aristocrats in search of hard cash have been able to rent both town and country places to rich Americans, anxious to climb their way into British society. And the American embassy has been besieged by ambitious people from "republika." American anxious to have their daughters or wives "presented" at one of the courts held by the king and queen.

By dint of persistence and pull, many of these daughters of the republic got the coveted "commands" to present themselves at court. Busy times follow. They spend a small fortune having glad-rags built by some court dressmaker. They hire some impetuous British gentleman to teach them the proper way to bow and scrape.

And on the great day they sit in an auto in a long line of machines, each with a number, waiting their turn to drive into the royal palace yard. In the meantime the London cockneys stare at them just as if they were monkeys in cages and make audible remarks about them.

When they finally get into the palace, they make their stiff approach to the royal pair, curtsy, get a fishlike handshake and the big thing is over.

It opens no doors for them in London and doesn't help them any in America. But their vanity has been satisfied. They have gotten something that millions of better Americans couldn't get and probably wouldn't care for.

In France they appreciate the importance of daily grub. For instance, the newly elected president of France, Gaston Doumergue, the other day got a very interesting letter from the mayor of a little fishing village of that southern France from which the chief executive also hails. It said:

"Have you a good cook at the Elysee Palace? Everything depends upon that. A bad cook can cause a bad stomach; a bad stomach paralyzes the best intentions.

"If the man charged with the duty of watching over your appetite and, hence, your health, is not up to his job, write me a word and I will consider myself honored to come and preside over the Elysee kitchen stoves. My only reservation would be that from Paris I would watch over the interests of the commune of which I am mayor."

Italy is one of the European lands where motorization is not popular. In most of the big cities you find more horse-drawn passenger vehicles than you do taxis. And now Venice has just shown that an important part of its population is very much opposed to new-fangled ideas.

For centuries the best way, in fact, the only way of locomotion on Venice's street canals has been the gondola. Not long ago the city authorities decided to allow electric launches of light draught to play in the canals. But they were counting without their gondollering fellow-citizens.

The latter blocked the way with their boats, so that the launches could not get out even after they were hired. And, finally, about three hundred gondolas loaded with Venetians were propelled down the Grand Canal to the town hall, where they regaled the city fathers with this song: "Down with motor boats!"

Britons have invented a new verb which they invariably employ on their Yankee acquaintances. Their greeting is: "Good morning. Have you Wembled since you landed here?" They are referring of course to the British Empire Exhibition at Wembley. Hence to have "Wembled" is to have visited the show.

NOTICE TO COAL DEALERS

Bids are requested for supplying 1000 tons (more or less) best lump lignite coal, delivered in the bins of the several Bismarck public schools during year ending June 30, 1925. Bids to be opened at regular meeting of board Tuesday, Aug. 12, 1924 at 8 p. m. High School. Privilege reserved to reject any or all bids. By order of Board of Education, RICHARD PENWARDEN, Clerk.

7-1-3-8-10-15-17-22-24-29-31-8-5-7

The frigate bird and the albatross can both sleep on the wing.

Every person uses an average of 12 pounds of soap annually.

LINK after LINK

Franklin plucked a zigzag of lightning out of the sky. Bell linked it with a bit of wire and gave the human voice more power than the thunder. Now scientists, discarding the wire, hurl one voice — undiminished — in countless radii across the world.

Each day the ingenuities of men are bettering, strengthening yesterday's progress. In foods, clothing, house - furnishings, inventions, minds are adding link to link—trying to lift you closer to contentment.

Each day, records of this progress flash in advertisements before you. They are personal, timely messages of products that will please.

The advertisements suggest not only the new — but the best; spread them out honestly before you so that you can conveniently choose. They show you highest values at sensible cost. They help you to live better—and save.

Read the advertisements to learn of the latest ways you can make your life more pleasant.

KEEP UP WITH THE ADVERTISEMENTS TO KEEP ASPACE WITH PROGRESS

PAYMENTS FOR N. D. HAIL FUND ARE ANNOUNCED

Figures For Five Years Show Tax Payments and Losses Paid Farmers

GAINS AND LOSSES

Thirty-eight counties in the state have paid more hail insurance taxes than they have received payments for hail losses, in the last five years, while 15 counties have received greater loss payments than they have remitted in taxes, according to the audit of the state hail insurance department made by O. B. Land, accountant.

The total excess of tax payments over loss payments is \$4,067,255.16, the department having a large surplus.

The comparison of tax payments and loss payments for the five year period follows:

County	Total hail tax payments	Total hail loss payments
Adams	240,200.00	240,200.00
Barnes	202,228.19	202,228.19
Benson	383,336.97	243,962.68
Billings	112,325.78	92,474.82
Bottineau	695,629.58	367,519.63
Bowman	270,032.63	394,529.99
Burke	488,291.60	262,791.51
Burlington	490,063.34	551,398.99
Cass	582,530.19	364,704.94
Cavalier	567,565.00	297,442.17
Dickey	290,113.88	433,110.10
Divide	650,025.96	944,089.24
Dunn	536,411.76	1,146,268.76
Eddy	327,114.69	478,749.21
Emmons	374,673.33	280,689.54
Farley	421,536.65	528,917.97
Golden Valley	354,344.63	417,299.48
Grand Forks	567,839.36	185,931.33
Grant	422,897.54	310,603.69
Griggs	363,611.92	310,208.65
Hettinger	375,927.44	297,929.22
Kidder	374,679.47	286,929.62
LaMoure	607,081.36	270,192.04
Logan	315,536.63	493,301.61
McHenry	482,837.61	150,379.66
McIntosh	225,983.94	131,540.51
McKenzie	358,392.95	272,993.64
McLean	682,967.08	352,460.18
Mercer	332,738.12	392,461.32
Morton	375,580.57	278,712.32
Mountain	381,542.63	248,614.19
Nelson	362,937.62	67,821.46
Oliver	168,555.68	208,258.25
Pennington	423,031.11	201,471.97
Pierce	368,003.22	152,860.18
Ransom	427,070.57	130,634.73
Ransom	377,364.98	223,488.42
Renville	517,536.68	508,307.67
Richland	392,439.37	91,282.46
Rolette	199,456.58	91,598.29
Sargent	279,831.73	136,467.80
Sheridan	390,170.17	228,577.22
Sioux	61,364.12	31,733.43
Slope	319,293.91	555,529.93
Stark	390,119.49	321,618.33
Steele	290,426.81	174,254.52
Stutsman	1,028,356.75	784,087.42
Towner	361,255.88	289,075.15
Trail	375,259.88	209,386.28
Walsh	372,779.65	97,791.84
Ward	767,429.31	342,610.00
Wells	534,255.28	142,802.77
Williams	861,865.70	1,517,905.97

The counties which appeared to have gained most from the state hail insurance, and the amounts the indemnities paid have exceeded tax payments, include: Williams \$653,127.87; Slope, \$236,275.12; Dunn \$615,857.00; Divide \$294,064.18.

The counties which appear to have lost most, considering excess of payments over loss, include: Ransom \$340,272.39; Cass \$417,885.23; Grand Forks \$317,907.43; McHenry \$332,457.95; Bottineau \$388,120.55; Ward \$424,810.31; Stutsman \$274,987.81; Ramsey \$296,433.84; Nelson \$295,116.57.

BANKER, 70, TO PAY ALIMONY

\$24,000 Verdict Is Upheld in Supreme Court

St. Paul, July 18.—David Burton, aged 70 years, president of the First National Bank of Wheaton, must pay his divorced wife, Sophia Burton, 60, \$24,000 permanent alimony and cost of attorneys' fees, the supreme court held today in affirming Judge Flaherty of the Traverse county district court.

The Burtons were married at Williston, North Dakota, February 22, 1910, and a short time following Mrs. Burton filed action for divorce on the grounds of inhuman and cruel treatment. In affirming a lower court, the supreme court held that "alimony is substitute for marital support."

WHO BRANDED HIM?

The letters "K. K. K." are seared upon his back. But Rev. Orrin Van Loon of Berkeley, Mich., a Detroit suburb, insists he remembers nothing of the branding. The minister had started for Lake Orion, Mich., to attend a Bible conference. Nearly two weeks later he was found unconscious on the streets of Battle Creek. He had lost 30 pounds and his hair had turned from gray to white. Doctors declared he had been drugged. Rev. Van Loon said he recalled nothing from the time he cashed a check at a bank in Royal Oak, near his home, until he awakened in the hospital in Battle Creek.

ALMOST LIKE AN AIRPLANE

Aquaplaning is the little brother of airplaning. The thrills of the two sports are much the same. Aquaplaning is a popular sport at bathing beaches the length and breadth of the country. The three bathers shown here are skimming over the waves after a fast motorboat.

LADD IS FOR LAFOLLETTE

North Dakota Senator to Support Wisconsin Man

Washington, July 18.—Senator Ladd, Republican, North Dakota, said today that he intended to support the LaFollette presidential campaign in his own state "with-out leaving the Republican party."

TO BACK HIM
Cedar Rapids, Iowa, July 18.—The board of directors of the Order of Railway Conductors last night formally endorsed the candidacy of Senator Robert M. LaFollette for the presidency, according to a statement given out by President L. E. Sheppard today.

GOVERNMENT IS DEFEATED

London, July 18.—The MacDonald government was defeated in the House of Commons today by a vote of 171 to 149 during consideration of the unemployment insurance bill.

The vote was on an amendment offered by liberal and conservative members, which was carried despite labor opposition. The government's reversal is not considered

RECORDS MADE IN OLYMPICS ARE RATIFIED

International Board Also Votes to Abolish Some Competition

Paris, July 18. (By the A. P.)—The Congress of the International Amateur Athletic Association today ratified seven world records and 12 Olympic records made during the past Olympic competition and eliminated four events from future Olympic programs. The events eliminated were the pentathlon, the 10,000 meter walk, the 3,000 meter track and the 10,000 meter cross country runs.

William C. Prout, president of the A. A. U., was elected American member of the federation council, succeeding Frederick W. Rubie.

Four out of the seven new world records ratified were hung up by athletes from the United States. These were the marks made by Robert Legendre, the former Georgetown star, in the broad jump, in the pentathlon; by Harold Osborne, Illinois A. C. in his decathlon victory, and by the American navy team in the 400-meters and 1,600-meter races. The remaining world records are credited to Willie Ritola of Finland in the 10,000-meter run, to E. H. Liddell of England in the 400-meters event and to A. W. Winters of Australia in the hop, skip and jump.

These marks also stand as new Olympic records. In addition to them Paavo Nurmi of Finland established three Olympic marks for the distances of 1,500, 3,000 and 5,000 meters. The marks made by Osborne in the running high jump and by Clarence Houser in the discus throw complete the list.

The curtailment of the Olympic program decided upon is likely to affect especially such nations as Finland, which depend largely on their distance runners. The three events of this class eliminated gave Finland 49 points out of the 166 she scored in the 1924 games.

George Lupino, the oldest clown and actor in England, is also an accomplished artist.

Cook by Electricity.
It is Safe.

Now—Cooler Breakfasts

Tomorrow's breakfast prepared with tonight's dinner—a QUICK QUAKER delight

Try this new recipe

HERE is the richest, most delightfully cooling of hot weather breakfasts. Made of oats, it's supremely nourishing and invigorating, too.

As you prepare dinner tonight, cook your regular breakfast quantity of QUICK QUAKER (the new Quaker Oats that cooks in three to five minutes).

When done, pour into a pudding mould and let cool. Then place in the refrigerator over night. Cut in medium thick slices and serve at breakfast with fresh or cooked fruits or berries and sugar—float with rich milk or cream.

The combination is delightful. A world noted chef discovered this new way. Just for the joy of it, try it.

Standard full size and weight packages—
Medium: 1 1/4 pounds; Large: 3 pounds, 7 oz.

ST. LOUIS ACE IS GOLF KING

This year's trans-Mississippi golf championship, the third most important amateur event in America, was won by James Manion of St. Louis, a former caddy and twice holder of the Missouri state championship. Manion's closest bid to national fame was when he carried Willie Hunter, former English Champion, to the thirty-sixth green in the 1921 event.

National metal weather strips applied to your windows and doors will keep out the rain, and dust of summer and winds of winter. Richard O. Sloan. Phone 461.

McLAREN IS REPORTED SAFE

Wireless Message Says Aviator Has Been Found

Tokio, July 18. (By the A. P.)—The foreign community and Japanese authorities took a deep breath of relief when news filtered down by wireless from the Kuriles islands that the McLaren part of the round the world fliers was safe.

The party, headed by A. Stuart McLaren, hopped off from Lake Toshimoye on Yotoru Island for Paramashiru Island last Wednesday. Until a Japanese destroyer picked up a wireless report from a commercial steamer that the party had landed on Urupu Island, near the starting point of their hop, no word had been received from them. Nor, as yet has anything concerning the reason for their landing at that point been received.

CITY BOARD ENDS TASK

Virtually Finished Work of Equalization

The city commission, sitting as a board of equalization, virtually completed its work of equalizing property values for taxation this morning. The changes made by the board are to be turned over to City Assessor Falconer for extension on his books.

GRAHAM BROTHERS TRUCKS

One reason for their long life and exceptional economy is their light, sturdy construction. Neither engine, chassis nor pocketbook are taxed with the high cost of pulling excess weight. Every load is a pay load.

"AGGRESSIVE NEWSPAPER ADVERTISING IS VITALLY NECESSARY TODAY TO MEET COMPETITION"

Marshall Field & Co.

That's a good hunch to follow right now, Mr. Merchant. ADVERTISE!—and advertise where you are sure to reach the largest number of buyers, where your message will bring the quickest and surest response—

ADVERTISE IN THE BISMARCK TRIBUNE

The one paper that for 50 years has carried the world's news to Slope homes and covers the rich agricultural district of North Dakota.
